Code: **EEAD**
Adopted: June 24, 2006

Individual Transportation Contracts

When the daily transportation of a pupil is not practical or economical the Board of Trustees, in lieu of furnishing transportation, may make payments to the parents or guardians of the pupil to assist in defraying costs for transportation. The Board authorizes reimbursement for transportation at the established state rate per day of attendance at school.

Payment of money in lieu of furnishing transportation will be made only if the guardian or parents have an approved Individual Contract on file.
