Retirement of Facilities

Certain school buildings may no longer be adequate for instructional purposes and should be used to benefit the district or public in other ways. In determining which facility is to be retired for regular school purposes, the Board will be guided by this combination of factors:

- Educational flexibility: Which school building is least adaptable for housing a modern and flexible educational program?
- Site: Which school site is least adequate for continued use as an educational center?
- Cost: Which school building represents the highest cost in terms of upkeep, maintenance and renovation?

The Board may invite the viewpoints of community residents and staff in making its decision.
