

Guidance Program

The district's counseling and guidance program focuses on the developmental needs of all students.

Counselors demonstrate respect for each individual's dignity and worth and encourage each student to develop individual responsibility and decision-making skills. Counselors coordinate the school guidance program and involve all staff members in designing and implementing plans to meet three major goals:

- Educational Development - Students will participate in planning their educational experiences so that their education is consistent with educational requirements and career aspirations;
- Personal/Social Development - Students will develop appropriate behaviors for a variety of social settings; students will develop awareness of self and confidence in their own abilities;
- Career Development - Students will develop career options consistent with their interests, abilities and values. Career development includes focus on vocation, avocation, family life and citizenship.

Within the framework of the counseling and guidance goals, specific student and curricular objectives will be developed.

Within the areas of counseling and guidance responsibility, the counselor enters into professional relationships with three segments of the school community: students, school personnel and parents. Consistent with individual rights and the counselor's obligations as a professional, the counseling relationship and resulting information is, in most instances, protected as privileged communications by Nevada law. When appropriate, counselors will be responsible for explaining the ramifications of confidentiality to students.
