ABOUT CARVER MST

Carver MST is a 3rd-6th grade elementary school with an emphasis on integrating math, science, and technology in daily learning activities. Students at Carver MST deepen their understanding using hands-on learning in our science lab and research garden.

The Technology Lab provides students with opportunities to expand their knowledge of programming, coding, and engineering. With the addition of Carver Robotics Team, students can now compete to showcase their talents using innovative technology.

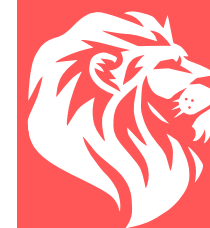

Carver MST is the only elementary school in the wiregrass to offer the ALEKS math program. ALEKS is an online learning platform that helps educators and parents understand each student's knowledge and learning progress in depth, and provides the individual support required for every student to achieve mastery.

STEAM School

Science, Technology, Engineering, Art, & Math

A RATED SCHOOL

Carver MST received an A rating from the Alabama Department of Education. With a score of 93% in Academic Achievement and 100% in Academic Growth, Carver MST ranks as one of the top performing elementary schools in Alabama. Our ELA and Math classes are currently ranked 3rd in the state for 6th grade.
