

Renee Linford  
1st Grade

Welcome to my First Grade students. I have taught First grade for eighteen years and Second grade for seven years both in New Hampshire and in the Utah school systems. I was the pioneer teacher in the French Dual Immersion Program at Jeremy Ranch Elementary School and taught the English side for seven years.

I have six wonderful children and two grandsons who are growing up way too quickly! All of my children are an inspiration to me. I grew up on the East coast in New Hampshire and love the ocean and lakes. I also love gardening, reading, hiking, kayaking, and biking. In my spare time, my passion is oil painting landscapes and viewing masterpieces in galleries.

I think being an educator is amazing! I enjoy watching the developmental process that happens in the primary grade levels. I love being an instrument in a child's life to aid in their success academically. I take my job very seriously to help each child reach their full potential but to help them see that learning is FUN! I am excited to work with your family to make this year awesome!
