Travel Vaccinations

Vaccination recommendations for travel vary depending on your particular medical history and to where you are traveling. A medical professional trained specifically in travel vaccinations can tell you what is needed for your particular case. For this reason, it is important to visit a clinic that specifically focuses on travel vaccinations.

For information about what vaccines *may* be recommended, visit <http://wwwnc.cdc.gov/travel/destinations/list/>

Many vaccinations recommended for international travel may not be available at your doctor's office, or the immunization clinics listed above. For Kaiser members, Kaiser does have a travel vaccination clinic. For affiliates of UC Berkeley, contact the International Travel Clinic at (510) 643-7177. Travel vaccines are also available at the following sites:	Adult Immunization and Travel Clinic 101 Grove St., Room 102 San Francisco	(415) 554-2625 www.sfcdep.org/aitec.html

Yellow Fever Vaccine Shortage: Due to a reduction in the production of yellow fever vaccine, vaccine may become unavailable at some travel vaccination clinics. Visit <https://wwwnc.cdc.gov/travel/page/search-for-stamaril-clinics> for a list of clinics providing yellow fever vaccine by county, and call ahead to confirm clinic stock.
