

North Clackamas School District is fully committed to the health and safety of all faculty, staff, students and visitors. The district believes that occupant safety and a healthy environment are important factors in the functioning of the total educational program, making the district schools a better place to learn and work, creating positive relationships with district customers and stakeholders, preparing students to be responsible citizens and to work safely in the community.

As part of the district's ongoing program to meet this safety commitment, comply with regulatory requirements, and contain health care costs, all employees must complete certain safety training when they first start working for the district and periodically thereafter. The courses are available through the PublicSchoolWORKS online training system and can be completed at the convenience of the employees.

**All employees need to complete annual online courses, for the 2023-2024 school year between August 22 and October 6, 2023 (not before).**

The PublicSchoolWORKS system will track employee training and automatically notify those who haven't completed the courses. Also, school sites will be sent a report that will show those employees who have not completed the training.

**For NEW staff, all required trainings will need to be completed within the first 30 days of employment, after receiving the PSW notice.** *Staff may have additional courses required, depending on their role within the District.*
