

Addison Central School District

Policy: Fire and Emergency Preparedness Drills
File Code: F3
Warned: August 1, 2023
Adopted: August 14, 2023

Statement of Policy

It is the policy of the Addison Central School District to require each school site to conduct options-based response drills in the fall and spring of each academic year, and to adopt and maintain an all-hazards emergency operations plan, as part of the District's overall school safety plan.

Definitions

1. **Options-based Response Drill:** For the purpose of this policy, options-based response drill means that there are different actions educators and students can take if confronted by an active shooter/intruder.
2. **School site:** school building(s) operated by the school district.

Administrative Responsibilities

The superintendent or designee will ensure that:

1. Each school site in the district conducts age-appropriate, options-based response drills, including fire drills, in the fall and spring of each academic year. The district must evaluate which approach is best and adapt that approach to the developmental level of their students, including for students with disabilities, language barriers, and mobility needs.
2. The options-based response drills follow the guidance issued by the Vermont School Safety Center and the Vermont School Crisis Planning Team, which includes trauma-informed best practices for implementing options-based response drills.
3. Parents and guardians are notified not later than one school day before an option based response drill is conducted.
4. Completion of the biannual drills is reported to the Agency of Education in a format approved by the Secretary.
5. On or by July 1, 2024, an all-hazards emergency operations plan is adopted and maintained for each school site. This plan must be reviewed and updated annually and in collaboration with local emergency first responders and local emergency management officials.
