# Code of Conduct: Rights and Responsibilities for Students, Families, and Staff

## Foreword

This Code of Conduct is a guide to student behavior. The ROCORI Public Schools, ISD 750, School Board creates and adopts policies to guide the actions of everyone in the district. The district administrative team develops procedures for how these policies will be implemented in ROCORI Public Schools. Staff work with students to set and follow the expectations for how they will work together in classrooms. Staff members are held to high standards of behavior and are subject to all applicable laws, Board of Education policies, and Human Resources' rules and practices.

The rules and regulations regarding student behavior, intervention, and discipline in this document fulfill the Board of Education's policies as stated in [ROCORI Public Schools Board Policies](#).

This Code of Conduct applies to incidents and situations that occur in school, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists. This document may also apply to incidents that occur off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

# Standards of Student Behavior

ROCORI Public Schools believe in effective partnerships between students, staff, families and community members to create a climate that is inclusive, safe, caring and stimulating, and promotes shared responsibility for performance and innovation.

In order to support our school climate initiatives, ROCORI Public Schools use evidence-based strategies to support positive student development. Some of these strategies include restorative practices, Positive Behavior Interventions and Supports (PBIS), and Social Emotional Learning Competencies (SEL).

A safe and positive learning environment is essential. Knowing and complying with the district's expectations and procedures will support students in making positive choices. Students will be held accountable for their actions when they are disruptive or act inappropriately. When students do not follow the rules, school staff members are expected to respond appropriately and consistently.

Refer to the ROCORI Student Handbook for information beyond this ROCORI Code of Conduct:

This section of the Code of Conduct identifies the five levels of behavior infractions with examples of what supports, interventions, and responses could include. These guidelines describe the various actions that may be taken when a behavior infraction occurs.

Interventions and responses will be used within the general guidelines of the five levels of the behavior matrix. Level one is the least severe and level five is the most severe. The format of this section includes the behavior infractions, their definitions and the levels of each behavior. The level of the behavior infraction is identified, but does not indicate which specific response will be taken at the administrative level. There shall be a logical relationship between the severity and frequency of the behavior infraction, the age of the student, and the administrative action. School administrators will inform the parent of any student whose behavior is in serious conflict with established rules and procedures. Students and their families are responsible for working collaboratively with school staff to support the rules and procedures outlined in this Code of Conduct.

Unless otherwise noted, these policies apply to student behavior infractions occurring on any property owned or controlled by ROCORI Public Schools, occurring in connection with any activity sponsored by or associated with ROCORI Public Schools, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

## Additional Information

### Intervention Processes

All intervention actions will be processed pursuant to ROCORI Public Schools discipline policies, the requirements of the [Minnesota Pupil Fair Dismissal Act](#) and other applicable law.

- School staff will use support, responses, and interventions in the Code of Conduct to respond to behavior infractions.
- Juvenile or criminal proceedings or consequences against the student do not preclude the school district from disciplining the student for violations of for other misconduct.
- Any student who violates a policy that has a potential consequence of suspension from school for more than one school day shall have an informal conference with a school administrator.
- If a student's total days of removal from school exceeds ten (10) cumulative days in a school year, the school district shall make an attempt to convene a meeting with the student and the student's parent before subsequently removing the student from school.
- All students who violate a policy or rule that has the potential consequence of expulsion or exclusion will be given the opportunity to have a hearing in accordance with Minnesota law.
- See the [Minnesota State High School League Official Handbook](#) to determine the impact of administrative actions on student eligibility and participation in Minnesota State High School League activities.

### Alternative Educational Services Procedures

When students are removed from class because of a behavior infraction, school staff must provide missed assignments and the opportunity to make up those assignments in a reasonable amount of time without penalty. \* Students with Individualized Education Programs (IEPs) and 504 Plans have additional protections.

If a student is suspended for more than five (5) consecutive school days, the student is entitled to alternative educational services that will allow the student to progress toward academic progress and meeting graduation requirements. Generally, ROCORI Public Schools provides alternative educational services according to the following schedule:

Length of Suspension	Services Provided	School Administrator or Designee Responsibility	Parent/Guardian Responsibility
Up to five (5) school days	Current classroom work and homework will be made available, if possible	Arrange for classroom work and homework to be made available to the student from teachers	Pick up classroom work and homework from school that is not available online. Assist student with returning completed work upon student's return to school
Six (6) to ten (10) school days*	Current classroom work and homework will be made available no later than the sixth school day of suspension	Arrange for classroom work and homework to be made available to the student from teachers	Pick up classroom work and homework from school that is not available online. Assist student with returning completed work upon student's return to school
Up to 15 school days (only pending expulsion, consideration of administrative transfer, or when student constitutes a substantial and immediate danger)*	Alternative education services must be arranged to begin no later than the 11 <sup>th</sup> school day	Arrange for alternative education services as soon as a determination has been made to refer student for expulsion or transfer	Assist school administrator in establishing a schedule for the delivery of alternative education services

This schedule does not preclude school administrators from providing different alternative educational services that allow the student to progress toward academic progress and meeting graduation

requirements. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension.

The school administrator is responsible for ensuring that the school attempts to provide required alternative educational services. Families also have the responsibilities set forth above. Parents who have concerns about the school's compliance with these procedures should contact the school administrator or superintendent promptly.

### **Students with an Individualized Education Program (IEP)**

When a student with a disability is dismissed for more than ten (10) days in a school year, is being considered for a 45-day unilateral placement, or before initiating any expulsion or exclusion, relevant members of the child's IEP team and the child's parent shall, consistent with federal law, conduct a manifestation determination meeting. That meeting must occur as soon as possible, but no more than ten days after the sixth consecutive day of suspension or when the tenth cumulative day of suspension has elapsed. The team will determine if the behavior is related to the student's disability. The team may need to conduct a Functional Behavior Assessment and write a behavior intervention plan to support the student at school.

A dismissal for one (1) school day or less is a day of suspension if the student with a disability does not receive special education services as outlined in the IEP during that dismissal period. A student with a disability shall be provided alternative educational services to the extent a suspension exceeds five (5) consecutive school days.

Consistent with federal law, before initiating an expulsion or exclusion, the district, relevant members of the student's IEP team, and the student's parent shall determine whether the student's behavior was caused by or had a direct and substantial relationship to the student's disability and whether the student's conduct was a direct result of a failure to implement the student's IEP. When a student with a disability who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student's disability, the district shall continue to provide special education and related services during the exclusion or expulsion.
