Clayton County Board of Education Jonesboro, Georgia

The Comprehensive Annual Financial Report (CAFR) of the Clayton County Board of Education (Board) for the fiscal year ended June 30, 2013, is submitted herewith. This report was prepared by the Business Services Division. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education.

We believe the data, as presented, is accurate in all material aspects. We believe that it is presented in a manner designed to fairly set forth the financial position and results of operations of the Board of Education as measured overall and by the financial activity of its various funds. The data includes all disclosures and required supplementary information necessary to enable the reader to gain the maximum understanding of the Board's financial activity.

Readers of this report are encouraged to consider the information presented here in conjunction with additional information presented in Management's Discussion and Analysis beginning on page 4 of this report.

#### The Board's History and Services

Clayton County, Georgia, was created by an act of the State Legislature on November 30, 1858. It was named for the Honorable Augustin S. Clayton (1783-1839), a judge of the Western Circuit of Georgia, a member of the legislature and of Congress. The City of Jonesboro is the county seat and was originally called "Leaksville". The State of Georgia granted a charter for the Leaksville Academy on December 22, 1823 and Mr. Allen D. Candler organized the Clayton High School around the year 1858.

Georgia had no regularly organized system of common schools supported by public taxation before the War Between the States, although unsuccessful efforts were made in 1845 and again in 1856 to inaugurate such a program. The first real school organization came about as a result of an act on October 13, 1870.

The Clayton County School System operated from 1870-1890 under the supervision of a County Commission of Education. Data indicates that the Clayton County School System as it is known today was formally established by an act of the State Legislature in Jonesboro on

September 21, 1891, and a tax was levied on taxable property in the amount of 7 ½ mills. A Board of Education composed of nine members was authorized and provision was made to receive a pro-rata share of county funds for schools.

Today the nine-member elected Board of Education has full authority to control and manage the schools within Clayton County. Clayton County Public Schools is the fifth largest school system in the State of Georgia with approximately 52,000 students currently enrolled in 36 elementary schools, 14 middle schools, 9 high schools and 4 special entity facilities for the current budget year of 2012 - 2013. The district has also approved two charter schools within the county, the Elite Scholars Charter School serving students in sixth through eleventh grade and the Unidos Dual Language Charter School serving students in grades kindergarten through eighth grade.

The Board provides all basic services required by state law and policies of the State Board of Education and State Department of Education. These services include: preschool for three and four-year old students with disabilities, regular preschool for four-year olds students, regular and special education instructional programs at the elementary (kindergarten through 5<sup>th</sup> grade), middle (6<sup>th</sup> through 8<sup>th</sup> grade), and secondary (9<sup>th</sup> through 12<sup>th</sup> grade) levels. Additional services include programs for Career Technical Education in partnership with post-secondary institutions in the area as well as joint enrollment opportunities for high school students with Clayton State University.

#### **Economic Condition and Outlook**

Clayton County is part of the Metropolitan Atlanta Area, and is south of the City of Atlanta. Hartsfield-Jackson Atlanta International Airport is within the boundaries of Clayton County, and as the country's largest passenger airport and the second largest cargo facility in the world, is one of the primary revenue sources in the county. Because of this location, the school district is impacted by the economy of the airport and the airline industry. Three of the school system's largest taxpayers have businesses directly related to operations at the airport.

During FY2013, the recession continued to impact the school system's major revenue sources. Both property tax revenues and state funding through the "Quality Basic Education" Act funding have been impacted by the economy. The mortgage industry crisis brought about a significant decline in property values. The overall tax base of the county decreased by approximately \$446 million, resulting in a loss of \$11.5 million in local tax revenues to the school system. Because of the economy, the Governor has made numerous austerity reductions in state funding. In FY2013, the school system's state funding was reduced by \$34.8 million.

In addition to private industry, the county is also home to a military facility that closed in 2012. Plans for the revitalization of the Fort Gillem property are underway with the hope that this will bring new economic opportunities to the county. The county is exploring many ideas to revitalize various areas of the county to help boost the local economy.

#### **Long-Term Financial Planning**

The school system prioritizes its capital improvements based upon the approved referendums adopted by the citizens of Clayton County. Capital needs are prioritized by student population and facility repair and maintenance needs. These projects are funded by the 2009 Special Purpose Local Option Sales Tax (SPLOST) and remaining projects from the 2004 SPLOST, in addition to state capital outlay funds from the State of Georgia Department of Education. Renovations, additions, and new construction are continuously underway as the school system works to ensure that its facilities provide a safe and welcoming environment.

The school system has financial policies that provide us with an infrastructure for our future financial management decisions. These policies cover topics including operating budget, reserve fund balances, accounting and financial reporting, and purchasing.

#### **Major Initiatives**

During fiscal year 2009, the Board of Education revised its mission, vision, and beliefs statements of the school system. The process involved principals, central office administrators, the superintendent's cabinet, and the community. The Board adopted these revisions in July 2010. The Mission, Vision, and Core Belief statements and the Strategic Goals of the district are reviewed annually.

#### **Mission Statement**

The mission of Clayton County Public Schools is to be accountable to all stakeholders for providing a globally competitive education that empowers students to achieve academic and personal goals and to become college and career ready, productive, responsible citizens.

#### **Vision Statement**

The vision of Clayton County Public Schools is to be a district of excellence preparing ALL students to live and compete successfully in a global economy.

#### **Core Belief Statements**

- We believe children have first priority on all of our resources.
- We believe education is the shared responsibility of the student, the parent/guardian, the school, and the community.
- We believe communication and understanding among all stakeholders of our diverse community are essential to achieving the goals of education.
- We believe that learning is a continuous process and most productive when the needs of each child are met through instruction provided by competent and caring teachers.
- We believe a learning environment where children experience security, care, dignity, and respect is essential.

#### **Strategic Goals**

- 1. To increase academic achievement for all students in Clayton County Public Schools as evidenced by state, national and international assessment results.
- 2. To provide and maintain a safe, orderly and secure learning environment.

- 3. To create an environment that promotes active engagement, accountability, and collaboration of all stakeholders to maximize student achievement.
- 4. To effectively communicate the system's vision and purpose and allow stakeholder involvement in an effort to build understanding and support.
- 5. To provide high quality support services delivered on time and within budget to promote student academic success in the Clayton County Public Schools.
- 6. To recruit and retain highly qualified and effective staff.

#### **Accounting System**

#### **Internal Controls**

In developing and evaluating the Board of Education's accounting system, consideration is given to the adequacy of internal controls. Internal accounting controls are designed to provide assurance of the following within reasonable constraints:

- the safeguarding of assets and gains and loss from unauthorized use and/or disposition
- the reliability of financial records for preparing financial statements and maintaining accountability for assets

#### **Budgetary Controls**

An annual budget is prepared in accordance with state law. Budgetary control is maintained at the fund level by encumbrance accounting.

The budget process is comprised of five phases – planning, preparation, adoption, implementation and evaluation. These phases ensure adequate administration and control of all Board funds. To maintain compliance with Board budget policies and State of Georgia law, a budget development calendar is adopted by the Board of Education in October of each year. The calendar outlines the budget development process for the next fiscal year.

The budget process is inclusive of central level and school level staff as well as a citizen's budget committee. Work sessions with the Board and public hearings are held prior to the adoption of the budget in June of each year.

#### Single Audit

As a recipient of federal financial assistance, the Board is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to these programs. These internal controls are subject to periodic evaluation by the Board's management.

#### **Independent Audit**

The Clayton County Board of Education and the State of Georgia require an annual audit of the school district's financial statements by independent certified public accountants. Mauldin and Jenkins is the current accounting firm under contract with the Board to perform this function. The Independent Auditor's Report on the Basic Financial Statements is

included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the Single Audit section.

#### **Financial Reporting Awards**

For the five consecutive periods ending June 30, 2007; June 30, 2008; June 30, 2009; June 30, 2010; and June 30, 2011; the Clayton County Public School System submitted its comprehensive annual financial report (CAFR) for review by the Association of School Business Officials (ASBO) for consideration in the Certificate of Excellence in Financial Reporting Program. With great pride, the Clayton County Public School System received the ASBO Certificate of Excellence for each financial reporting period. The receipt of this award confirmed that the reports substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials International. The award was granted only after an extensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. We believe that the CAFR for the current year ending June 30, 2013, also conforms to the exact same principles and standards.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to Clayton County Public Schools for its comprehensive annual financial report for the third consecutive period for fiscal years ended June 30, 2009; June 30, 2010; and June 30, 2011. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements.

#### Acknowledgements

We wish to express our appreciation to the Business Services Division staff members whose dedicated efforts have enabled this report to be prepared.

Respectfully submitted,

Luvenia Jackson

Luvenia Jackson Superintendent

### CLAYTON COUNTY BOARD OF EDUCATION FUNCTION AND COMPOSITION

All matters relating to education and operation of the Clayton County Board of Education schools are governed and controlled by the Board of Education (Board), as provided by Georgia Law.

The Board has the responsibility to maintain a reasonably uniform system of public schools providing quality education for all young people of Clayton County. With the advice of the Superintendent, it must determine the policies and prescribe the rules and regulations for the management of the school system.

The Board holds a work session and a regular public meeting once a month to conduct normal business. Additional called meetings are sometimes necessary for a specific purpose.

The Board is composed of nine members who are elected on a district basis. Each member resides within one of the nine voting districts.

The Board elects a Chairperson for a two year term and a Vice Chairperson for a one year term from its members.

As of January 1, 2013, the members of the Board and years of expiration of their terms are as follows:

TITLE	NAME	TERM EXPIRES
Chairperson	Dr. Pam Adamson	12-31-2014
Vice Chairperson	Ms. Mary Baker	12-31-2016
Board Member	Mr. Mark Christmas	12-31-2016
Board Member	Ms. Jessie Goree	12-31-2016
Board Member	Mr. Michael King	12-31-2014
Board Member	Ms. Ophelia Burroughs	12-31-2016
Board Member	Ms. Judy Johnson	12-31-2016
Board Member	Dr. Alieka Anderson	12-31-2014
Board Member	Mr. Charlton Bivins	12-31-2014

#### **MISSION STATEMENT**

The mission of Clayton County Public Schools is to be accountable to all stakeholders for providing a globally competitive education that empowers students to achieve academic and personal goals and to become college and career ready, productive, responsible citizens.

## **Financial Section**

Clayton County Public Schools

#### INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of the Clayton County Board of Education Jonesboro, Georgia

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Clayton County Board of Education** as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Clayton County Board of Education's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and the fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Clayton County Board of Education as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows, thereof, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As discussed in Notes 1 and 16, the Clayton County Board of Education implemented Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*, as well as Statement No. 65, *Items Previously Reported as Assets and Liabilities*, as of July 1, 2012. Our opinions are not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 4 through 13) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Clayton County Board of Education's basic financial statements. The combining and individual fund financial statements and schedules, and the schedule of expenditures of federal awards, as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards, (collectively "the supplementary information") are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

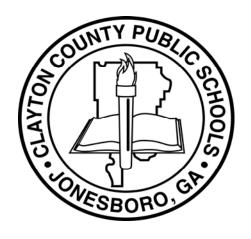

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 17, 2014, on our consideration of Clayton County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Clayton County Board of Education's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Macon, Georgia October 17, 2014

# Management's Discussion and Analysis

Clayton County Public Schools

#### **Management's Discussion and Analysis**

This section of Clayton County Board of Education's (the Board's) annual financial report presents its discussion and analysis of the Board's financial performance during the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to examine the Board's financial performance as a whole. Readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the Board's financial condition.

The reporting model is a combination of both government-wide financial statements and fund financial statements. The basic financial statements contain three components:

- 1. Government-wide financial statements including the Statement of Net Position and the Statement of Activities which provide a broad, long-term view of the Board's finances.
- 2. Fund financial statements including the balance sheets that provide a greater level of detail and focus on how well the Board has performed in the short term in the most significant or major funds.
- 3. Notes to the financial statements.

This report presents the financial highlights for the year ended June 30, 2013, and other supplementary information.

As with other sections of this financial report, the information contained within this Management's Discussion and Analysis should be considered only as part of a greater whole. The reader of this analysis should take the time to read and evaluate all sections of the report, including the notes to the financial statements.

#### **Financial Highlights**

Key financial highlights for fiscal year 2013 are as follows:

- On the government-wide financial statements:
- The assets of the Clayton County Board of Education (Board) exceeded its liabilities at the fiscal year ended June 30, 2013 by \$756.3 million. Of this amount, \$71.2 million was unrestricted net position and available to meet the Board's ongoing obligations.
- The Board's net position of its governmental activities increased by \$50.2 million. This increase is primarily the result of a net increase in capital assets. The Board experienced an increase of \$73.3 million in net capital assets in its governmental activities. This is the amount by which capital outlays exceeded depreciation in the current period. The fund balance amount of the total governmental funds decreased \$25.7 million.
- Program revenues of the governmental activities accounted for \$254.6 million, or 57% of the \$445.1 million in total revenues of the governmental activities. General revenues of the governmental activities accounted for \$190.5 million, or 43% of the total.

- The Board reported \$394.9 million in expenses for the governmental activities. Of this amount, \$254.6 million were offset by program specific grants, charges for services or contributions. General revenues, primarily property taxes and sales taxes, were used to provide for the remaining expenses of these programs.
- The Net position of the Board's business-type activities increased \$1.3 million. The Board has two business-type funds reported. The first is the school nutrition program and the second is the Performing Arts Center. Total expenses for food service activities were \$29.6 million, while expenses of the Performing Arts Center were \$237,737. Program revenues, operating grants and contributions, and capital contributions for these business type activities totaled \$31.1 million. This revenue, along with general revenues of interest earnings in the amount of \$2,044 resulted in the increase in net position referenced above of \$1.3 million.
- The General Fund (the primary operating fund), presented on a current financial resources basis, ended the year with a fund balance of \$56,520,113, an increase of \$18,157,712 from June 30, 2012.
- The Capital Projects Fund ended the year with a fund balance of \$50,649,431, a decrease of \$44,299,870.
- The Board decreased its outstanding long-term liability by \$822,678.

#### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Board:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the Board's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Board, reporting the Board's operations in more detail than the government-wide statements.
  - ❖ The governmental funds statements tell how basic services such as instruction and instructional support services were financed in the short term as well as what remains for future spending.
  - ❖ Proprietary fund statements offer short and long-term financial information about the activities the Board operates like businesses, specifically the school nutrition program and the Performing Arts Center.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the Board's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

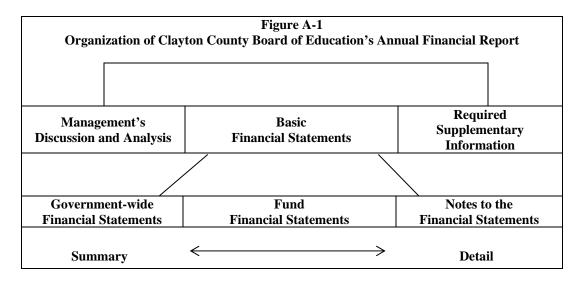

Figure A-2 summarizes the major features of the Board's financial statements, including the portion of the Board's activities they cover and the types of information they contain.

		re A-2 Education's Financial Statements	
	Government-wide Statements	Governmental Funds	Proprietary Funds
Scope	Entire Board (except fiduciary funds)	The activities of the Board that are not proprietary or fiduciary, such as instruction, school administration, and building maintenance	Activities the Board operates similar to private business: food services
Required financial statements	- Statement of net position - Statement of activities	- Balance sheet - Statement of revenues, expenditures, and changes in fund balance	- Statement of net position - Statement of revenues, expenses, and changes in fund net position - Statement of cash flows
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus
Types of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

#### **Government-wide Statements**

The government-wide statements report information about the Board as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Board's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net position and how it has changed. Net position, the difference between the Board's assets and liabilities, is one way to measure the Board's financial health or position.

Over time, increases or decreases in the Board's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the Board, additional non-financial factors, such as changes in the property tax base, community support for education and student achievement should be considered.

The government-wide financial statements of the Board are divided into two categories:

- Governmental activities All of the Board's basic services are included here, such as instruction and instructional support, administration, student transportation and maintenance and operation of facilities.
- Business type activities The Board operates a food service operation and charges fees to staff, students and visitors to help cover the cost of the food service operation. The Board also operates a performing arts center that is accounted for as a business-type activity.

#### **Fund Financial Statements**

The Board's fund financial statements, which begin on page 17, provide detailed information about the most significant funds, not the Board as a whole.

Governmental funds – Most of the Board's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Board's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Board's programs. The relationship (or differences) between governmental activities (reported in the Statement

of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

*Proprietary funds* – Services for which the Board charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The Board's *enterprise fund* (one type of proprietary fund) is the same as its business-type activities but provides more detail and additional information, such as cash flows. The Board uses *internal service funds* (the other kind of proprietary fund) to report activities that provide supplies and services for its other programs and activities. As of June 30, 2011, the Board's only internal service fund for the employee dental benefit program was closed.

#### Financial Analysis of the Board as a Whole

Table A-1, below, provides a summary of the Board's net position for the year ended June 30, 2013 compared to June 30, 2012.

	Governmental Activities			Business Activit	~ =	Tota	Percentage Change	
	2013		2012	2013	2012	2013	2012	2013-2012
Current and other Assets	\$ 179.9	\$	223.1	8.9	7.2	188.8	230.3	-18.0%
Net capital assets	629.5		556.3	5.0	5.3	634.5	561.6	13.0%
Total Assets	809.4		779.4	13.9	12.5	823.3	791.9	4.0%
Current and other liabilities	63.7		83.1	1.7	1.6	65.4	84.7	-22.8%
Long-term liabilities	1.6		2.4	-	-	1.6	2.4	-33.3%
Total Liabilities	65.3		85.5	1.7	1.6	67.0	87.1	-23.1%
Net Position								
Invested in capital assets								
net of related debt	629.6		556.3	5.0	5.3	634.5	561.6	13.0%
Restricted for Capital Projects	50.6		94.9	-	-	50.6	94.9	-46.7%
Unrestricted	63.9		42.7	7.2	5.6	71.2	48.3	47.4%
Total net position	\$ 744.1	\$	693.9	12.2	10.9	756.3	704.8	7.3%

The Board's combined net position increased by 7.3% to \$756.3 million. Most of this improvement in the financial position came from governmental activities, the net position of which grew by \$50.2 million. The net position of the Board's business-type activities increased \$1.3 million or 11.9%. The reasons for the increase in governmental activities are the result of the large capital program underway funded without debt through a Special Purpose Local Option Sales Tax (SPLOST) and capital outlay grants from the State of Georgia. The increase in the business-type activities is attributed to increased federal reimbursement for school nutrition cafeteria operations.

The Board reported a restricted net position amount of \$50.6 million. This is a decrease of 46.7% from the restricted amount reported as of June 30, 2012. The change is due to the increased

activity in the capital projects fund and cash reserves being drawn down for the projects underway. The amount set aside as restricted in the governmental activities is related to net position required by a third party or state law to be spent for a specific purpose.

#### Table A-2 Changes in Net Position Fiscal Year Ended June 30, 2013

Table A-2 takes the information from the Statement of Activities and presents it in a format that shows total revenues first and then expenses and the resulting increase in net position.

Transfers	-	-	-	-	-	-					
Net Position - beginning of year	693.9	656.4	10.9	9.5	704.8	665.9					
Net Position - end of year	\$ 744.1	693.9	12.2	10.9	756.3	704.8					

Table A-2 on the previous page shows that revenues from governmental activities for 2013 were \$445.1 million, while total expenses were \$394.9 million. Governmental activities contributed \$50.2 million to the total increase in net position, while business-type net position resulted in an increase of \$1.3 million in net position.

Program revenues, in the form of charges for services, operating grants and contributions and capital grants and contributions decreased \$12.7 million. This decrease was primarily the result of a decrease in state and federal grants received for instructional programs.

Property taxes comprise the largest percentage of the general revenues for the Board with 23% of total revenues coming from this source. The decrease of 9.5% from the previous year is due in large part to the declining value of the tax digest. Sales tax revenues generated by the Special Purpose Local Option Sales Tax (SPLOST) increased \$1.6 million to a total of \$50.3 million. Interest and investment earnings decreased by \$368,311.

Table A-3 summarizes the cost of the Board's activities into eight functional categories—Instruction; Pupil, Instructional and Media services; General and Business Administration; School administration; Maintenance and operations; Pupil transportation; Central support and other support; and Community Services and non-instructional. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the Board's local taxpayers by each of these functions.

	Net		Go	able A-3 vernmentions of do	tal Activities ollars)			
		Total of Sei		ees	Percentage Change	Net Co of Servi	ces	Percentage Change
		2013		2012	2013-2012	 2013	2012	2013-2012
Instruction	\$	274.4	\$	296.4	-7.4%	82	93.2	-12.0%
Pupil, Instructional and Media Services		35.6		35.0	1.7%	15.3	13.9	10.1%
General and Business Administration		5.5		5.6	-1.8%	2	2.3	-13.0%
School administration		19.5		21.2	-8.0%	9	12.3	-26.8%
Maintenance and operations		27.8		30.6	-9.2%	14.1	16.2	-13.0%
Pupil transportation		18.1		18.0	0.6%	14.1	14.2	-0.7%
Central Support and other support		11.9		16.1	-26.1%	8.1	12.4	-34.7%
Community Services and non-instructional		2.1		3.3	-36.4%	-4.3	-7.0	-38.6%
Total Governmental Activities	\$	394.9	\$	426.2	-7.3%	140.3	157.5	-10.9%
Less: Unrestricted federal and state aid:						27.6	20.9	32.1%
Total needs from local taxes and other reven	ues:					\$ 112.7	136.6	-17.5%

The total cost of governmental activities decreased 7.3%, while the net cost of services decreased 10.9%.

#### **Business Type Activities**

Revenues for the Board's business-type activities (school nutrition and performing arts center) were comprised of charges for services, federal and state reimbursements and investment earnings. (See Table A-2).

- Business-type revenues exceeded expenses during the year for an increase of \$1.3 million in net position.
- Charges for services represent \$2.1 million of revenue. This represents amounts paid by students, teachers and other customers of the cafeteria operations and the performing arts center.
- Federal and state reimbursement for meals, including payments for free and reduced lunches, was \$29.0 million.

The Statement of Revenues, Expenses and Changes in Fund Net Position for these proprietary funds will further detail the actual results of operations.

#### **Analysis of the Board's Funds**

At June 30, 2013, the Board's governmental funds reported a combined fund balance of \$112,289,810. This is a decrease of \$25,750,422. The primary reason for this decrease is attributed to the Capital Projects Fund which decreased by \$44,299,870.

The fund balance of the General Fund was \$56,520,113 at June 30, 2013. The Capital Projects ending fund balance was \$50,649,431 while all other Governmental Funds had a total fund balance of \$5,120,266 at June 30, 2013.

The fund balance of the General Fund improved significantly primarily because of the school system's conscious efforts to reduce expenditures. Amid state budget cuts and the decline in property tax revenue, a reduction in expenses was necessary to ensure a positive ending fund balance. The Board approved a reduction in force and reduced transportation and programs to curb spending.

The decrease in the Capital Projects Funds is the result of the large capital program underway that is funded through a SPLOST and capital outlay grants from the State of Georgia.

#### **General Fund Budgeting Highlights**

The Board's budget is prepared according to Georgia state law. The most significant budgeted fund is the General Operating Fund.

In accordance with GAAP, the Board amended its General Fund to reflect funding changes.

The total expenditures realized a positive variance of \$13.9 million. This was due to overall budget reductions implemented by the Board to reduce expenditures. The Board took measures such as imposing a large reduction in force and reduced transportation and programs to reduce expenditures to counter the anticipated reduction in revenues.

The total revenue had a negative variance of \$1.5 million. This was primarily due to an over estimation of property tax collections.

#### **Capital Asset and Debt Administration**

#### **Capital Assets**

At June 30, 2013, the Board had \$629,552,909 invested in a broad range of capital assets, including land, buildings and furniture and equipment for its governmental activities. The Board is currently funding a five-year capital improvement program with revenue from a one-cent local option sales tax that was approved by the citizens of Clayton County in September, 2009. The maximum amount of collections approved by this referendum was \$280.3 million. The sales tax revenue, along with state capital outlay grants will fund the program through 2014.

Table A-4 Capital Assets (net of depreciation) (in millions of dollars)										
		Governi Activi					tal	Total Percentage Change		
		2013	2012	2013	2012	2013	2012	2011-2013

Equipment and furniture	_	11.4	8.6	1.1	1.3	12.5	9.9	26.3%		
Total capital assets net of depreciation	\$	629.5	556.2	5.0	5.3	634.5	561.5	13.0%		

More detailed information about capital assets can be found in Note 7 of the Notes to the Basic Financial Statements.

#### **Debt Administration**

At June 30, 2013, the Board had no outstanding long-term bond debt. Because of the availability of the one cent sales tax for capital improvements since 1997, the Board has not had the need to issue any new debt and used proceeds from the sales tax to retire all of the previously existing long-term bond debt.

#### **Economic Factors**

The downturn in the economy has had a significant impact on the state and the local community:

• For the budget year 2012-2013, the school district implemented measures to reduce spending. The Board made the difficult decision to mandate layoffs. These reductions

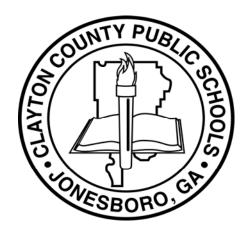

were necessary to help offset the reduction in revenue. Due to the continued decline in the economy, the school system's primary revenue sources experienced reductions. The continued mortgage industry crisis has significantly impacted property values which resulted in the decrease of \$446 million in the overall tax base for Clayton County. Additionally, the Governor made huge reductions in the state budget that lead to a \$34.8 million loss in QBE revenue to the school system.

• The County has seen significant changes in the demographic makeup of its population. The percentage of students that qualify for free or reduced priced lunches exceeds approximately 80% district-wide.

As a result, all schools in the district are eligible to receive Title I federal funding under the No Child Left Behind Act for the Economically Disadvantaged.

#### **Contacting the Board's Financial Management**

This financial report is designed to provide the Board's citizens, taxpayers, customers, and investors and creditors with a general overview of the Board's finances and to demonstrate the Board's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the Business Services Division, Clayton County Public Schools, 1058 Fifth Avenue, Jonesboro, Ga. 30236.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2013

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ (25,750,422)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	73,312,703
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net assets.	(4,224)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	2,428,332
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	 209,253
Change in net position - governmental activities	\$ 50,195,642

### **Notes to Financial Statements**

Clayton County Public Schools

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2013

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Reporting Entity

The Clayton County Board of Education (the "School System") operates under a Board/Superintendent form of government. The nine-member Board is elected by the public and the Board appoints the superintendent. These nine elected members have decision making authority, the power to designate management, and the ability to significantly influence operations. The Board determines the millage rate at which school taxes are levied and may incur bonded indebtedness with voter approval.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the School System. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the School System considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The fiduciary fund financial statements are reported using the accrual basis of accounting.

Property taxes, sales taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period.

Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School System must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School System on a reimbursement basis.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally, teachers are contracted for the school year (July 1 – June 30) and paid over a 12-month contract period, generally, September 1 through August 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the School System over the same 12-month period in which teachers are paid, funding the academic school year expenditures.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued, as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes. By June 30 of each year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

The School System reports the following major governmental funds:

The *General Fund* is the School System's primary operating fund. It accounts for all financial resources of the School System, except those required to be accounted for in another fund.

The *Capital Projects Fund* accounts for the proceeds of a one percent Special Purpose Local Option Sales Tax as well as revenues from local and state sources to be used for land and building acquisitions and construction and renovations of new educational and administrative facilities.

The School System reports the following major proprietary fund:

The **School Food Service Fund** accounts for the monies and commodities received from the federal and state governments and the School Food Service's cafeteria sales for the purpose of maintaining the School System's breakfast, lunch, and snack programs.

Additionally, the School System reports the following fund types:

The **special revenue funds** account for Federal and state funded programs. These grants are awarded to the School System for the purpose of accomplishing specific educational tasks as defined in the grant agreements. These funds also contain several locally funded programs whose expenditures are limited to specific purposes. School Activity Funds are also reported as special revenue funds. The School Activity Funds are used to account for funds collected primarily through the fund raising efforts of the individual school. Each school's principal is responsible, under the authority of the Board, for collecting, controlling, disbursing, and accounting for his or her school's funds. All resources of the fund, including earnings on invested resources, may be used to support the schools' activities.

The Agency Fund is used to account for student club and class accounts.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the School System's school food service program and the General Fund. Elimination of these charges would distort the direct costs reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the School System's internal service fund are charges for goods and services provided. Operating expenses of the enterprise funds and internal service funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the School System's policy to use restricted resources first, then unrestricted resources as they are needed.

#### D. Cash and Investments

The School System's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

### E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### F. On-Behalf Payments

The State of Georgia makes certain health insurance and pension plan payments on behalf of the School System for its employees. The School System records these payments as both a revenue and expenditure in the General Fund. The total of the on-behalf payments for the fiscal year ended June 30, 2013 was \$27,654.746.

### G. Inventories and Prepaid Items

Inventories are stated at cost using the first-in, first-out method. Donated food commodities are recorded at fair value. The School System utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenses when used rather than when purchased.

Payments made to vendors for services that will benefit periods beyond year-end are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting expenditure/expense in the year in which services are consumed.

### H. Non-Monetary Transactions

The School System received from the United States Department of Agriculture through the Georgia Department of Education approximately \$2,168,085 in donated food commodities for its lunchroom programs. The federally assigned value of these commodities is reflected as revenue and an expense in the financial statements.

### I. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the School System as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### I. Capital Assets (Continued)

Property, plant and equipment are depreciated using the straight line method over the following estimated useful lives:

Asset	Years
Improvements	20-50
Buildings	20-50
Machinery and equipment	4-10

### J. Deferred Outflows / Inflows of Resources

The School System implemented GASB Statements No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and No. 65, Items Previously Reported as Assets and Liabilities, as of July 1, 2012. These new standards establish accounting and financial reporting for deferred outflows / inflows of resources and the concept of net position as the residual of all other elements presented in a statement of net position.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The School System did not have any items that qualified for reporting in this category for the year ended June 30, 2013.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School System has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, charges for services, and grants, and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

### K. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### L. Compensated Absences

It is the School System's policy to permit employees to accumulate unused vacation and sick pay benefits. Accumulated unpaid sick leave benefits do not vest and therefore are not accrued in any fund, but are recognized as expenditures or expenses when incurred. Accumulated unpaid vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

### M. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Board of Education is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable: Fund balances that are not in spendable form (e.g., inventory) or are legally or contractually required to be maintained intact (e.g., permanent fund principal).

Restricted: Fund balances that can be spent only for the specific purposes stipulated by external parties, either constitutionally or through enabling legislation (e.g., grants or donations).

Committed: Fund balances that can be used only for the specific purposes determined by an approved resolution of the Clayton County Board of Education. Commitments may be changed or lifted only by referring to formal action that imposed the original constraint on the fund (e.g., the School System's commitment in connection with future construction projects).

Assigned: Fund balances intended to be used by the School System for specific purposes. Pursuant to the fund balance policy, intent can be expressed by the Clayton County Board of Education or by a designee to whom the Clayton County Board of Education delegates authority. In governmental funds other than the General Fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at minimum, intended to be used for the purpose of that fund.

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### M. Fund Equity (Continued)

Unassigned: Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The School System reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

The responsibility for designating funds to specific classifications is as follows:

Committed: The Clayton County Board of Education is the School System's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board.

Assigned: The Clayton County Board of Education has authorized the Superintendent and the Chief Financial Officer as officials authorized to assign fund balance to a specific purpose as approved by this fund balance policy.

When multiple categories of fund balance are available for expenditures (e.g., a project is being funded partly by a grant, funds set aside by the Clayton County Board of Education, and unassigned fund balance), the School System will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

#### N. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

### A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between *fund balance – total* governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$5,711,529 difference are as follows:

Workers' compensation claims payable	\$ 1,827,034
Claims & judgments payable	513,317
Compensated absences	3,371,178
Net adjustment to reduce fund balance - total governmental funds	
to arrive at net position - governmental activities	\$ 5,711,529

### B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$73,312,702 difference are as follows:

Capital outlay	\$ 88,452,281
Depreciation expense	(15,139,578)
Net adjustment to increase net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ 73,312,703

### NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

C. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$209,253 difference are as follows:

753
253
,,,

### NOTE 3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

**Budgets.** The School System adopts annual budgets for its general and special revenue funds, except that an annual budget is not adopted for the School Discretionary special revenue fund. The School System does not employ encumbrance accounting and, accordingly, all appropriations lapse at year end. After the School System has tentatively adopted a budget, such budget is advertised at least one time in a local newspaper of general circulation. At the next regular meeting of the Board members after the advertisement, the budget is revised as necessary and adopted as the final budget. This final budget is then submitted to the Georgia Department of Education in accordance with provisions of the Quality Basic Education Act (QBE).

The level of budgetary control (the level at which expenditures may not exceed appropriations) is at the fund level.

The Statement of Revenues and Expenditures – Budget (Non-GAAP) to Actual presents actual and budget data for the General Fund. To facilitate comparison with the budget, adjustments have been made to actual revenues and expenditures to reflect actual amounts on the budget basis.

### NOTE 3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

The primary differences between the budget basis and accounting principles generally accepted in the United States of America ("GAAP") are:

- a. State QBE revenue is recorded when received (budget) rather than when susceptible to accrual (GAAP).
- b. Salaries and employee benefits paid to teachers under contract are recorded when paid (budget) rather than when the liability is incurred (GAAP).
- c. Payments made by the State of Georgia for School System employee benefits are recognized as revenues and expenditures under GAAP and are not recognized on the budget basis.

Adjustments necessary to convert the General Fund's net change in fund balance from the GAAP basis to the budgetary basis are as follows:

GAAP basis net change in fund balance	\$ 18,157,712
Adjustment for:	
State QBE revenue	(245,700)
Salaries and employee benefits	(2,736,384)
State paid employee benefit revenue	(932,774)
State paid employee benefit expenditures	 932,774
Budget basis net change in fund balance	\$ 15,175,628

### NOTE 4. DEPOSITS AND INVESTMENTS

Credit risk. State statutes authorize the School System to invest in: obligations of the United States, the State of Georgia and other political subdivisions of the State of Georgia, and other states; prime bankers' acceptances; repurchase agreements; and the Georgia local government investment pool (Georgia Fund 1). Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard & Poor's criteria for AAAm rated money market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on a \$1.00 per share value. The fair value of the School System's position in the pool is the same as the value of pool shares (\$1 per share value). The regulatory oversight agency for Georgia Fund 1 is the Georgia Office of State Treasurer. As of June 30, 2013, the School System's investment in Georgia Fund 1 was rated AAAf by Standard & Poor's. The School System does not have a policy for credit risk beyond the types of investments authorized by Georgia State law.

At June 30, 2013, the School System had the following investments:

Investment	Maturities	 Fair Value
Georgia Fund 1	43 day weighted average	\$ 1,371,824

**Interest rate risk.** The School System does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk – deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal and state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2013, School System's bank balance was fully collateralized.

### NOTE 5. RECEIVABLES

Receivables at June 30, 2013, for the School System's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

	Nonmajor			Nonmajor		School		
		Capital	G	Sovernmental		Food		
General		Projects		Funds		Service		Total
\$ 43,870,176	\$	4,364,089	\$	6,269,231	\$	148,475	\$	54,651,971

43,962,565		4,364,089		8,803,522		148,475		57,278,651
(6,277,784)				(506,858)				(6,784,642)
\$ 37,684,781	\$	4,364,089	\$	8,296,664	\$	148,475	\$	50,494,009
	\$ 43,870,176 92,389 43,962,565 (6,277,784)	\$ 43,870,176 92,389 43,962,565 (6,277,784)	General       Projects         \$ 43,870,176       \$ 4,364,089         92,389       -         43,962,565       4,364,089         (6,277,784)       -	General       Projects         \$ 43,870,176       \$ 4,364,089         92,389       -         43,962,565       4,364,089    (6,277,784)	General         Capital Projects         Governmental Funds           \$ 43,870,176         \$ 4,364,089         \$ 6,269,231           92,389         -         2,534,291           43,962,565         4,364,089         8,803,522           (6,277,784)         -         (506,858)	General         Capital Projects         Governmental Funds           \$ 43,870,176         \$ 4,364,089         \$ 6,269,231         \$ 2,534,291           43,962,565         4,364,089         8,803,522           (6,277,784)         - (506,858)	General         Capital Projects         Governmental Food Service           \$ 43,870,176         \$ 4,364,089         \$ 6,269,231         \$ 148,475           92,389         -         2,534,291         -           43,962,565         4,364,089         8,803,522         148,475           (6,277,784)         -         (506,858)         -	General         Projects         Funds         Service           \$ 43,870,176         \$ 4,364,089         \$ 6,269,231         \$ 148,475         \$ 2,534,291         \$ 43,962,565         \$ 4,364,089         \$ 8,803,522         \$ 148,475 <td< td=""></td<>

Intergovernmental receivables consist of grant reimbursements due primarily from the Georgia Department of Education, sales taxes which are collected by the state on the School System's behalf, and property taxes collected by Clayton County Tax Commissioner on the School System's behalf.

### NOTE 6. PROPERTY TAXES

Clayton County bills and collects property taxes for the School System. Property taxes are levied (assessed) on all taxable real, public utility and personal property (including vehicles) located within the County as of January 1st of each year. State law limits the School System's tax levy for operations to 20 mills (one mill equals \$1 per thousand dollars of assessed value). Assessed values for property tax purposes are determined by the Clayton County Board of Tax Assessors for all property except public utilities and motor vehicles. Assessed value is set at 40% of market value. The State of Georgia establishes values for public utilities and motor vehicles.

Real property taxes were levied on September 14, 2012 and were due November 15, 2012. Clayton County may place liens on property once the related tax payments become delinquent. The property tax receivable allowance is equal to 50% of outstanding property taxes at June 30, 2013, net of amounts collected within 60 days of year end.

Vehicle personal property taxes are due upon each respective payor's date of birth on an annual basis.

### NOTE 7. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2013, is as follows:

		Beginning Balance		Increases		Decreases		Transfers		Ending Balance
Governmental activities:										
Capital assets,										
not being depreciated:										
Land	\$	33,636,988	\$	-	\$	-	\$	-	\$	33,636,988

### NOTE 7. CAPITAL ASSETS (CONTINUED)

Depreciation expense was charged to functions/programs of the School System as follows:

Governmental activities:	
Instruction	\$ 12,340,112
Pupil services	5,135
Improvement of instructional services	7,369
Educational - media services	851
General administration	145,997
School administration	150,411
Business administration	718
Maintenance and operations	235,290
Student transportation	1,582,537
Central support services	603,417
Other non-instructional services	 67,741
Total depreciation expense - governmental activities	\$ 15,139,578
Business-type activities:	
School food services	\$ 332,547
Other activities	 146,476
Total depreciation expense - business-type activities	\$ 479,023

### NOTE 8. SHORT-TERM DEBT

**Tax Anticipation Note.** On August 6, 2012, the School System borrowed \$9,500,000 in the form of a tax anticipation note for cash flow purposes. The interest rate on the tax anticipation note was .86%. The entire amount plus accrued interest was repaid on December 20, 2012.

The following is a summary of short-term debt transactions for the School System for the year ended June 30, 2013:

	Beginning				Ending
	Balance		Additions	Reductions	Balance
Tax anticipation note	\$	 \$	9,500,000	\$ (9,500,000)	\$ 

### NOTE 9. LONG-TERM DEBT

Changes in long-term debt for the year ended June 30, 2013 are as follows:

	Beginning Balance	 Additions		Reductions		Ending Balance		Oue Within One Year
Governmental activities:								
Claims payable	\$ 2,500,104	\$ 1,476,650	\$	(1,636,403)	\$	2,340,351	\$	2,061,074
Compensated absences	3,420,678	 1,593,428		(1,642,928)		3,371,178		2,071,076
Governmental activities Long-term liabilities	\$ 5,920,782	\$ 3,070,078	\$	(3,279,331)	\$	5,711,529	\$	4,132,150
Business-type activities:								
Compensated absences Business-type activities	\$ 93,568	\$ 40,113	\$	(58,903)	\$	74,778	\$	44,484
Long-term liabilities	\$ 93,568	\$ 40,113	\$	(58,903)	\$	74,778	\$	44,484

Included in claims payable are payments of \$513,317 for claims settled subsequent to year end. The remaining balance of claims payable, \$1,827,034, is related to workers' compensation claims. For governmental activities, compensated absences and claims payable are liquidated primarily by the General Fund. For business-type activities, compensated absences are liquidated primarily by the School Food Service Fund.

### NOTE 10. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2013, is as follows:

Due to/from other funds:

				Du	e from				
				School	Capital			Nonmajor	
			Fo	od Service	F	Projects	Go	overnmental	
Due to		General		Fund Fumd Funds		Fund		Funds	Total
General Fund	\$	-	\$	430,705	\$	4,995	\$	3,572,996	\$ 4,008,696
Capital Projects Fund		-		-		-		17,797	17,797
School food service fund		6,552		-		-		-	6,552
Nonmajor enterprise fund		347,133		-		-		-	347,133
Nonmajor governmental									
funds		2,269,093		_					 2,269,093
	\$	2,622,778	\$	430,705	\$	4,995	\$	3,590,793	\$ 6,649,271

### NOTE 10. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (CONTINUED)

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

Transfers in	Transfers out				
	Gen	neral Fund			
Nonmajor Governmental Funds	\$	92,200			

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

### NOTE 11. RETIREMENT PLANS

<u>Teachers Retirement System</u>. Substantially all teachers, administrators, and clerical personnel employed by the School System are members of the Teachers Retirement System of Georgia (TRS), a cost-sharing multiple employer public employee retirement system administered by the TRS Board of Trustees. TRS provides retirement and disability benefits, and death benefits to plan members and beneficiaries. Title 47, Chapter 3 of the Official Code of Georgia Annotated, assigns the authority to establish and amend benefit provisions to the TRS Board of Trustees. The TRS Board of Trustees issues a publicly available financial report that includes financial statements and required supplementary information for TRS. That report may be obtained by writing to TRS of Georgia, Two Northside 75, Suite 400, Atlanta, GA 30331, or by calling 1-800-352-0650.

### NOTE 11. RETIREMENT PLANS (CONTINUED)

Covered employees are required by state law to contribute 6.00% of their annual covered salary to the plan and the School System is required to contribute 11.41% of current covered payroll. Covered employees' contributions for the years ended June 30, 2013, 2012, and 2011, were \$13,310,552, \$13,039,042, and \$13,691,853, respectively. The School System's contributions to TRS for the years ended June 30, 2013, 2012, and 2011, were \$25,292,041, \$24,231,110, and \$25,426,620, respectively, equal to the required contribution for each year.

Active members may retire and receive benefits after 30 years of creditable service regardless of age, or after 10 years of creditable service and reaching age 60. Upon retirement, an employee receives a retirement benefit, payable monthly for life. The amount is determined by multiplying 2% by the years of service up to 40 years. This amount in turn is multiplied by the employee's average monthly salary for the two highest paid consecutive years of service. Early retirement benefits are reduced by the lesser of 1/12 of 7% for each month the member is below age 60, or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the CPI, will be made in future years. Retirement benefits are payable monthly for life. Options are available for distribution of the member's monthly pension at a reduced rate to a designated beneficiary at the member's death.

<u>Public School Employees Retirement System</u>. Substantially all bus drivers, maintenance, custodial, and lunchroom personnel employed by the School System are members of the Public School Employees Retirement System of Georgia (PSERS), which is also a cost-sharing multiple employer public employee retirement system. The Board of the Public School Employees Retirement System of Georgia issues a publicly available financial report that includes financial statements and supplementary information for PSERS. That report may be obtained by writing Public School Employee Retirement System, Two Northside 75, Atlanta, Georgia 30318-7778, or by calling 1-800-805-4609.

PSERS provides service retirement, disability retirement and survivors' benefits for its members. A member is eligible for normal service retirement after 10 years of service and attainment of age 65. A member applying for service retirement with 10 years of service and retirees between the ages of 60 and 65 receive a reduced benefit. Monthly retirement benefits paid to members are equal to eight dollars per month multiplied by the number of years of creditable service. Retirement provisions include death and disability benefits. Benefits are established by state statute.

### NOTE 11. RETIREMENT PLANS (CONTINUED)

Covered employees are required by state statute to contribute four dollars per month for the ninemonth school year. Unlike TRS, the School System makes no contribution to PSERS. Total contributions from employees of the School System made during the fiscal years ended June 30, 2013, 2012 and 2011 were \$46,344, \$41,796, and \$48,432, respectively, which represented 100% of the required contributions for each of the respective years.

The State of Georgia is required by statute to make an annual contribution to PSERS based upon an actuarial calculation. The state's contribution for employees for the fiscal years ended June 30, 2013, 2012, and 2011 for School System employees was \$882,268, \$574,988, and \$261,648 respectively. These amounts were recognized as revenue and an expenditure during each of the years ended June 30.

Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest.

There were 1,108 employees covered under PSERS for the year ended June 30, 2013.

### NOTE 12. OTHER POST EMPLOYMENT BENEFITS

### Georgia Retiree Health Benefit Fund

Plan Description. The School System participates in the Georgia Retiree Health Benefit Fund ("GRHBF"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the State of Georgia Department of Community Health. GRHBF provides health insurance benefits to eligible retirees and their qualified beneficiaries. Pursuant to Title 45, Chapter 18 of the Official Code of Georgia Annotated, the authority to establish and amend the benefit provisions of the plan is assigned to the Board of the State of Georgia Department of Community Health. The Department of Community Health issues a publicly available financial report that includes financial statements and required supplementary information for GRHBF. That report may be obtained from the Department of Community Health at 2 Peachtree Street, Atlanta, Georgia 30303.

Funding Policy. The contribution requirements of plan members and participating employers are established and may be amended by the Board of the State of Georgia Department of Community Health. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election.

### NOTE 12. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

Participating state employers, including local Boards of Education, are statutorily required to contribute in accordance with the employer contribution rate established by the Board. The contribution rate is established to fund both the active and retired employee health insurance plans based on projected pay-as-you-go financing requirements. The combined rate for the active and retiree plans (pay-as-you go basis) for the fiscal year ended June 30, 2013 were as follows:

Period	Required Contribution
July 2012 - Feburary 2013	\$912.34 Per member per month
March 2013 - June 2013	\$937.34 per member per month

Currently, the state is requiring that local Boards of Education pay only on active employees. The School System's contribution to the health insurance plans for the fiscal years ended June 30, 2013, 2012, and 2011 were \$40,981,824, \$37,796,104 and \$38,345,656, respectively, which equaled the required contribution. Currently, the State of Georgia has been making the remaining contributions to fund the pay as you go financing on behalf of all local Boards of Education (see Note 1 for discussion of on-behalf payments).

### NOTE 13. RISK MANAGEMENT

The School System is exposed to various risks of loss for claims associated with torts; theft of, damage to and destruction of assets; errors and omissions; natural disaster; Workers' Compensation; unemployment compensation; and dental benefits. The School System is self-insured for workers' compensation. The School System purchases commercial insurance for all other risks of loss. The School System has not experienced any significant reduction in insurance coverage from the previous years nor has it paid any settlements in excess of insurance coverage in the past three years.

### NOTE 13. RISK MANAGEMENT (CONTINUED)

### Workers' Compensation

The School System is partially self-insured for Workers' Compensation claims of its employees. Claims exceeding \$250,000, but less than \$2,000,000 per occurrence are covered through a private insurance carrier. The School System is liable for any other claims filed. The School System has entered into a contract with a third party to administer the program. Activity is accounted for in the General Fund.

Changes in the balances of workers' compensation claims liabilities for the past two fiscal years for which the School System is self-insured are as follows:

Workers' Compensation	 June 30, 2013	 June 30, 2012
Unpaid claims, beginning of fiscal year	\$ 2,500,104	\$ 1,142,207
Incurred claims (including IBNRs)	963,333	2,817,007
Claim payments and changes in estimates	(1,636,403)	(1,459,110)
Unpaid claims, end of fiscal year	\$ 1,827,034	\$ 2,500,104

### NOTE 14. COMMITMENTS AND CONTINGENCIES

The School System is involved in a number of legal matters which either have or could result in litigation. Although the outcome of these lawsuits is not presently determinable, in the opinion of the School System's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the School System.

The School System participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School System has not complied with the rules and regulations governing grants, refunds of any money received may be required and the collectibility of any related receivable at June 30, 2013, may be impaired. In the opinion of the School System, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

The School System is committed under outstanding construction contracts in the Capital Projects Fund in the amount of \$85,919,707. Construction contracts include new school construction and expansion and renovation of existing facilities.

### **Supplemental Information**

Clayton County Public Schools

### **Combining Fund Schedules**

Clayton County Public Schools

### NONMAJOR GOVERNMENTAL FUNDS

### SPECIAL REVENUE FUNDS

<u>Adult Education Fund</u> is used to account for federal grants funds passed through the Georgia Department of Technical and Adult Education for the purpose of providing a vocational curriculum program for adults.

<u>After School Program Fund</u> is used to account for the after school program in place at all Clayton County elementary schools. Revenues consist of fees paid for the after school care of students.

<u>Athletics Fund</u> is used to account for athletic events held on behalf of Clayton County's schools. Revenues consist primarily of ticket and concession sales.

<u>Lottery Fund</u> is used to account for state grant funds flowing through the State of Georgia Department of Education for various programs as established by the state.

South Metro Fund is used to account for the development center for children with physical and mental handicaps.

<u>Title I Fund</u> is used to account for federal grant funds passed through the State of Georgia Department of Education to the Board to provide remedial education in the areas of reading and math and to provide a special education program for children who are physically handicapped.

<u>Title II Fund</u> is used to account for federal grant funds passed through the State of Georgia Department of Education to the Board for the purpose of training teachers in the math, science, foreign language, and computer science programs.

<u>Title III Fund</u> is used to account for federal grant funds passed through the State of Georgia Department of Education to the Board for the purpose of providing assistance to limited English proficient children and youth in Clayton County schools in attaining English proficiency.

<u>Title IV Fund</u> is used to account for federal grant funds passed through the State of Georgia Department of Education to the School System for the purpose of providing safe and drug free schools and communities.

<u>Title VI-B Preschool Fund</u> is used to account for federal funds authorized by the Individuals with Disabilities Education Act that are passed through the State of Georgia Department of Education to the School System for the purpose of providing special education programs for children with disabilities ages three to five.

### NONMAJOR GOVERNMENTAL FUNDS

### **SPECIAL REVENUE FUNDS (CONTINUED)**

<u>Title VI-B Fund</u> is used to account for federal funds in connection with the Individuals with Disabilities Education Act that are passed through the State of Georgia Department of Education to the School System for the purpose of providing special education programs for children in pre-kindergarten through 12th grade.

<u>Vocational Programs Fund</u> is used to account for federal grant funds passed through the State of Georgia Department of Education to the School System for the purpose of providing a vocational curriculum program.

<u>WorkTec Fund</u> is used to account for the activities of the WorkTec Rehabilitation Center, which assists economically, academically, and physically disadvantaged youths in preparing for or engaging in gainful employment. Programs are funded primarily by federal awards or federal service contracts.

**Race To The Top Fund** is used to account for federal grant funds passed through the State of Georgia to the School System for the purpose of implementing coherent, compelling, and comprehensive education reform.

<u>School Discretionary Fund</u> is used to account for the portion of the school activity resources used for general governmental expenditures.

<u>All Other Special Revenue Funds</u> is used to account for the activities of various other programs funded by local, state and Federal funds.

Note: Tax rates are per \$1,000 of assessed value.

Note: Property in Clayton County is reassessed once every three years. The County assesses property at 40% of actual value for all types of property. Estimated Actual Taxable Value is calculated by dividing Total Taxable Assessed Value by this percentage.

#### Notes:

<sup>\*</sup>See Schedule of Demographic and Economic Statistics

<sup>\*\*</sup>The School System had no outstanding General Obligation Bonded Debt after 2001

## DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF JUNE 30, 2013

	 Estimated Outstanding Debt	Percentage Applicable to Clayton County Board of Education	Amount Applicable to Clayton County Board of Education	
Direct Debt Clayton County Board of Education	\$ -	-	\$	-
Overlapping Debt Clayton County Landfill Authority	 34,169,223 11,660,000	100% 100%		34,169,223 11,660,000
Total Direct and Overlapping Debt	\$ 45,829,223		\$	45,829,223

NOTE: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School System. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses within the School System's boundaries. This process recognizes that, when considering the School System's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county/authority's taxable assessed value that is within the School System's boundaries and dividing it by the county/authority's total taxable assessed value.

Clayton County Public Schools

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Superintendent and Members of the Clayton County Board of Education Jonesboro, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Clayton County Board of Education as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Clayton County Board of Education's basic financial statements and have issued our report thereon dated October 17, 2014. Our report includes a reference to the changes in accounting principle resulting from the implementation of Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Clayton County Board of Education's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Clayton County Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Clayton County Board of Education's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2013-01 and 2013-03 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2013-02 to be a significant deficiency.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Clayton County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Clayton County Board of Education's Responses to Findings

Clayton County Board of Education's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Clayton County Board of Education's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Clayton County Board of Education's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Superintendent and Members of the Clayton County Board of Education Jonesboro, Georgia

#### Report on Compliance for Each Major Federal Program

We have audited the Clayton County Board of Education's compliance with the types of compliance requirements described in OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Clayton County Board of Education's major federal programs for the year ended June 30, 2013. Clayton County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Clayton County Board of Education's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Clayton County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Clayton County Board of Education's compliance.

#### Opinion on Each Major Federal Program

In our opinion, Clayton County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

#### Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 2013-04. Our opinion on each major federal program is not modified with respect to this matter.

Clayton County Board of Education's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Clayton County Board of Education's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

#### Report on Internal Control Over Compliance

Management of the Clayton County Board of Education is responsible for establishing and maintaining effective internal control over compliance compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Clayton County Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2013-04, that we consider to be a significant deficiency.

Clayton County Board of Education's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Clayton County Board of Education's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2013

#### B. FINDINGS: FINANCIAL STATEMENTS AUDIT

#### 2013-01. Receivables and Revenues

Criteria: Generally accepted accounting principles require revenue to be recognized in the accounting period in which it becomes both measurable and available to finance expenditures of the current period. Internal controls should be in place to ensure all revenues, receivables and deferred revenue amounts are properly recorded at year end and the need for an allowance for uncollectible accounts has been considered. Additionally, management should implement processes to collect amounts earned and due to the School System or consider such accounts receivable for write-off.

Condition: The School System did not properly record tax revenues and the related receivables, allowance for uncollectible accounts and deferred revenues at year end and did not properly record an allowance or deferred revenues for Worktec receivables not collected as of year end. Additionally, minimal collections of amounts earned in prior years and recorded as accounts receivable were collected during the fiscal year ended June 30, 2013.

Context: We addressed this matter with School System officials who determined the appropriate entries to receivables, allowance for uncollectible accounts, deferred revenue, and revenue at June 30, 2013.

Effect: Adjustments to increase taxes receivable by \$11,948,388, increase both the allowance for uncollectible taxes receivable and deferred revenue by \$6,277,784 and decrease tax revenues by \$607,180 were required to be recorded in the General Fund. An adjustment to increase the allowance for uncollectible accounts receivable and decrease deferred revenue by \$506,858, increase revenue by \$287,266, decrease accounts receivable by \$235,326, and decrease due to other funds by \$522,592 was required to be recorded in the Worktec Fund.

Recommendation: We recommend the School System strengthen internal controls to ensure that all receivables, revenues, deferred revenues and allowances for uncollectible accounts are properly adjusted at year end.

Views of Responsible Officials and Planned Corrective Action: Management concurs and has implemented steps to ensure that all revenues, receivables, deferred revenues and allowances are properly adjusted at year end.

#### 2013-02. Accounts Payable and Accrued Liabilities

Criteria: Generally accepted accounting principles require reporting of all current liabilities whose liquidation is expected to require the use of current assets when the goods have been received or services have been performed.

Condition: The School System did not properly address the above criteria as of June 30, 2013 as it relates to accounts payable in the General Fund and Capital Projects Fund.

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2013

#### B. FINDINGS: FINANCIAL STATEMENTS AUDIT (CONTINUED)

#### 2013-02. Accounts Payable and Accrued Expenses

Context: We addressed this matter with School System officials who determined the appropriate entries to accounts payable, accrued liabilities, and expenditures/expenses at June 30, 2013.

Effect: An adjustment to increase accounts payable and increase expenditures by \$81,157 was required to be recorded in the General Fund. An adjustment to increase accounts payable and increase expenditures by \$328,904 was required to be recorded in the Capital Projects Fund.

Recommendation: We recommend the School System strengthen internal controls to ensure that all accounts payable and accrued liabilities are properly adjusted at year end.

Views of Responsible Officials and Planned Corrective Action: Management concurs and has implemented steps to ensure that all accounts payable and accrued liabilities are properly adjusted at year end.

#### 2013-03. Recording of Grants

Criteria: Generally accepted accounting principles require revenue to be recognized in the accounting period in which it becomes both measurable and available to finance expenditures of the current period. Internal controls should be in place to ensure all revenues, receivables and unearned revenue amounts are properly recorded at year end. Additionally, controls should be in place throughout the year to ensure grant reimbursements are not completed until expenditures have been disbursed and any amounts received but not yet expended are recorded as unearned revenue at year end.

Condition: The School System did not properly record grant revenues and the related receivables, unearned revenues, and accounts payable to grantor agencies at year end.

Context: We addressed this matter with School System officials who determined the appropriate entries to receivables, revenues, unearned revenues, and accords payable at June 30, 2013.

Effect: Adjustments to increase grants receivable by \$517,146, increase unearned revenues by \$62,735, increase grant revenues by \$419,682, and increase accounts payable by \$34,729 were required to be recorded in the nonmajor governmental funds of the School System. An adjustment to increase accounts receivable and revenues by \$228,785 and an adjustment to increase expenditures and increase deferred revenue by \$331,841 were required to be recorded in the Capital Projects Fund.

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2013

#### B. FINDINGS: FINANCIAL STATEMENTS AUDIT (CONTINUED)

#### 2013-03. Recording of Grants

Recommendation: We recommend the School System strengthen internal controls to ensure that all receivables, revenues, deferred revenues and accounts payable are properly adjusted at year end.

Views of Responsible Officials and Planned Corrective Action: Management concurs and has implemented steps to ensure that all revenues, receivables, deferred revenues and accounts payable related to grants are properly adjusted at year end.

#### C. FINDINGS AND QUESTIONED COSTS: MAJOR FEDERAL AWARD PROGRAMS AUDIT

## 2013-04. Compliance with Indirect Cost Allocation Requirements – Race to the Top, CFDA 84.395

Criteria: The Office of Management and Budget (OMB) Circular A-87 authorizes Local Units of Administration (LUAs) to recover reimbursement for indirect costs associated with various federal programs. If the district elects to claim indirect costs, the rate used may be less than the calculated rate but may not exceed the approved rate established by the cognizant agency. Indirect costs are calculated by multiplying the approved rate by the expenditures included in the direct cost base minus excluded costs or unallowable items as specified in the grantee's indirect cost rate agreement.

Condition: Based on the above criteria, the School System did not properly charge indirect costs to the Race to the Top Grant for the fiscal year ended June 30, 2013.

Context: The School System elected to use the restricted indirect cost rate for the Race to the Top grant The restricted indirect cost rate was calculated by the Georgia Department of Education. The restricted indirect cost rate was 3.13% for the 2013 grant year. Adjustments to expenditures were made throughout the year without adjusting indirect costs. As such, the Race to the Top indirect costs were overcharged by \$1,218 for the fiscal year ended June 30, 2013.

Effect: The School System is not in compliance with its allowable costs requirements as indirect costs were incorrectly calculated.

Recommendation: We recommend the School System review the requirements for Federal programs to ensure that indirect costs are properly calculated and recorded.

Views of Responsible Officials and Planned Corrective Action: We will implement procedures to ensure indirect costs are appropriately calculated and recorded.

### SCHEDULE OF PRIOR YEAR FINDINGS FOR THE YEAR ENDED JUNE 30, 2013

#### 12-01. Receivables and Revenues

Criteria: Generally accepted accounting principles require revenue to be recognized in the accounting period in which it becomes both measurable and available to finance expenditures of the current period. Internal controls should be in place to ensure all revenues, receivables and deferred revenue amounts are properly recorded at year end and the need for an allowance for uncollectible accounts has been considered.

Condition: The School System did not properly record tax revenues and the related receivables, allowance for uncollectible accounts and deferred revenues at year end and did not properly record an allowance or deferred revenues for Worktec receivables not collected as of year end.

Auditee Response/Status: Unresolved. See current year finding 2013-01.

#### 12-02. Accounts Payable and Accrued Liabilities

Criteria: Generally accepted accounting principles require reporting of all current liabilities whose liquidation is expected to require the use of current assets when the goods have been received or services have been performed.

Condition: The School System did not properly address the above criteria as of June 30, 2012 as it relates to accounts payable and accrued payroll liabilities in the Capital Projects Fund, School Food Service Fund, Title I Fund, and Race to the Top Grant Fund.

Auditee Response/Status: Unresolved. See current year finding 2013-02.
