HIGH SCHOOL PROGRAMS

DUAL ENROLLMENT

What are Dual Enrollment courses?

Dual enrollment courses allow students to earn high school and college credit simultaneously, which saves students time and money on their college degrees! These courses are taught on site by Northeast State faculty members at local high schools, Northeast State campuses, and online. Using the enclosed handout, students will find information about which courses will be taught at their high school.

General education courses fulfill core requirements for many different programs of study, which means these courses should transfer to other institutions.

Career and Technical Education (CTE) courses give high school students the opportunity to earn college credit in the career field of their choice. CTE courses fulfill core requirements in many different programs of study. These courses may be applied toward earning a technical certificate or a two-year degree, saving students time and money!

What are the prerequisite requirements to enroll?

Prerequisites vary based on the course. Some courses do not require a minimum high school G.P.A. or ACT score to enroll. Refer to the enclosed handout to determine prerequisites for each course/program.

How do students register for dual enrollment classes?

- Students should let their counselor know that they are interested in dual enrollment courses to ensure they are included in their high school schedule for the upcoming academic year.
- Students must attend a mandatory orientation session to complete important applications and paperwork. High School Programs staff host the orientation sessions. Detailed orientation information can be found on the enclosed handout.
- Students must RSVP for their orientation session! RSVP instructions can be found on the enclosed handout.

Is financial aid available?

If a student has never taken dual enrollment courses, their first five dual enrollment courses will be FREE as long as they live in Tennessee and meet the College's admission requirements. Students who have already received funding for their first five dual enrollment courses will receive specific cost information at orientation depending on the course(s) in which they enroll.

Students will apply for the Dual Enrollment Grant at the orientation session to offset tuition costs associated with dual enrollment courses.

Textbooks, course fees, and supplies are an additional out-of-pocket expense for dual enrollment students. High School Programs staff will provide textbook information to students prior to the beginning of the semester.

Dual Enrollment Grant: Award Amounts

Course Information	Estimated Tuition*	Award Amount	Student Balance
Course 1	\$538.65	\$538.65	\$0
Course 2	\$538.65	\$538.65	\$0
Course 3	\$538.65	\$538.65	\$0
Course 4	\$538.65	\$538.65	\$0
Course 5	\$538.65	\$538.65	\$0
Course 6	\$538.65	\$300	\$238.65
Course 7	\$538.65	\$300	\$238.65
Course 8	\$538.65	\$300	\$238.65
Course 9	\$538.65	\$300	\$238.65
Course 10	\$538.65	\$300	\$238.65

*Estimated tuition and award amounts are based on amounts from the 2022-2023 academic year for 3 credit hour courses. The dual enrollment grant will pay the full tuition amount for up to a 6-credit hour course for courses 1-5. Please contact the High School Programs if you have additional questions.

How should students prepare for the orientation session?

- Ask your parent to complete the online parent consent form. A link to this form can be found on the enclosed handout.
- Bring a driver's license or driver's permit AND a copy of the student's birth certificate. (If you do not have one of these forms of identification, please let us know at orientation.)
- Submit ACT score report.
- Provide the student's social security number, the student's personal email address, and the parent/guardian's email address.

Check out some of the CTE courses and programs available!
