

New Construction and Renovations

Planning

A facilities master plan for the school district will be developed and maintained. The facilities master plan will reflect the needs of current instructional procedures and projected educational programming (e.g. the five-year Instructional Improvement Plan). The master plan will incorporate population projections, enrollment projections, site acquisition needs, school plant placement, and determination of financial needs for providing the necessary school facilities.

The master facilities plan shall include how the district will provide an appropriate learning environment for its students which includes, (1) adequate instructional books, supplies, materials, equipment, staffing, facilities and technology, (2) equitable allocation of resources and (3) a safe school setting. Attention shall also be given to how facilities can be utilized to improve academic achievement and to reduce racial, ethnic and economic isolation or to preserve racial and ethnic balance.
