Career Opportunities

JOB OUTLOOK

The Tennessee Department of Labor and Workforce Development listed at least five Education and Training jobs on Tennessee's in demand occupations list in 2026. Among these careers were Education Administrators, Librarians, Elementary School teachers, Secondary School teachers and Middle School teachers.

OCCUPATION PROFILE

Teaching as a Profession includes several career options such as: Librarian, elementary school teachers, secondary teachers, middle school teachers and education administrators. High school teachers teach academic lessons and various skills students will need to attend college. Elementary school teachers instruct young students in basic subjects to prepare them for future schooling. Middle school teachers educate students, typically in sixth through eighth grades. Lastly, Education administrators oversee all school operations, including daily school activities.
