### **Lake Worth Police Department Training in Lake Worth ISD Facilities**

**Lake Worth, Texas:** The Lake Worth Police Department will be conducting training within the Lake Worth Independent School District on December 3<sup>rd</sup>, 2020.

The LWPD will be conducting K-9 Explosive Detection Training at several Lake Worth ISD facilities: The unused DAEP building, the RIP Collins Gymnasium, and the LWISD Warehouse.

The K-9s are non-aggressive explosive search dogs. There will be unmarked police vehicles as well as marked police vehicles near the buildings during the training. Although students will not be involved in this training scenario, and the dogs and police officers will not be on our campuses, LWISD wishes to keep the public informed of the expected increased police presence near the facilities stated above.

For questions or additional information, please contact Mr. Andrew Carter, Director of Operations and Maintenance, at 817-306-4200.
