LWISD Responds to TEA's Updated Public Health Guidance

Lake Worth, Texas: The Texas Education Agency has announced an update to their Public Health Guidance in light of Governor Greg Abbott's cancelation of mask mandates in Texas.

Under TEA's updated Public Health Guidance, they have allowed public schools to continue their health and safety practices. The health and safety of our staff and the students we serve continues to be our top priority, and for that reason, Lake Worth ISD will continue to implement their current Health and Safety Plan which requires wearing masks or face coverings while on LWISD campuses.

Lake Worth Independent School District proudly serves over 3,300 students in the Dallas/Fort Worth Metroplex.
