

ELECTRONIC RESOURCE AND INTERNET USE OPT-OUT FORM

BEFORE SIGNING THIS OPT-OUT FORM, PLEASE REVIEW DISTRICT POLICY 2022 ELECTRONIC RESOURCES AND INTERNET SAFETY -and POLICY 2022P Electronic Resources and Internet Safety

For parents who want to decline electronic resources and internet access, please complete this opt-out form and return this page to the school office. A new form will need to be completed when your child is entering a new school or at grades: Kindergarten, Grade 6, and Grade 9.

Dear Parents or Guardians,

This form provides information regarding Sumner - Bonney Lake School District's (SBLSD) processes for students to use school district technology resources, including artificial intelligence, and personal devices on school district premises.

We believe that in preparing your child ~~(ren)~~ for their future it is critical for us to provide them with access to tools they may use as adults. We have provided every student a device to access online resources and curriculum that is key to every content area. For example, the Internet includes communication and information networks that were originally created for university-level research. It has evolved into a significant learning tool for students of all ages.

Adding opportunities brings increased responsibilities. We have established procedures and rules regulating the use of SBLSD technology resources. Your child ~~(ren)~~ will be instructed to practice responsible technology use so that SBLSD technology resources continue to be available for them and their peers. Students will also be directed to access instructionally appropriate content while using the Internet. SBLSD uses a filtering system to help prevent access to inappropriate content. While it does assist, it is not perfect.

It is important that you and your child read, discuss, and understand the Sumner - Bonney Lake School District Policy and Procedures 2022 for Electronic Resources and Internet Safety. This opt-out form is intended for parents who choose to DECLINE ALL access to technology for their child.

Regulations & Procedures 2022F
Instruction

I have reviewed Sumner-Bonney Lake School District Policy 2022 and Procedure 2022P, for Electronic Resources and Internet Safety.

By completing this form, I understand that this will result in NO access to electronic resources and school internet for my child. If there are multiple children in the family, a different form will need to be submitted for each child.
