

Use of Electronic Signatures

Under certain conditions, electronic records and signatures satisfy the requirements of a written signature when transacting business. The District wishes to establish an electronic signature policy that will:

- Promote efficiency in order to conserve public resources;
- Establish guidelines for the use of electronic signatures for certain District Transactions;
- Provide reasonable assurance of the integrity, authenticity, and nonrepudiation of electronic documents when electronic signatures are used by the District; and
- Determine the scope of the District's use of current electronic signature providers such as DocuSign, Adobe Sign (or other reputable platform) as an approved method for affixing and electronic signature to and electronic record. This policy will apply to any future replacement to the specific service provider platform.

Reducing the District's reliance on paper-based transactions will further improve information security and sharing, allow faster approval of and access to documents, and reduce costs and environmental impact. Providing the option of electronic signatures, when practicable, is consistent with the intent of Washington State law to promote electronic transactions and remove barriers that might prevent the use of electronic transactions by governmental entities.

The District encourages electronic transactions and the use of electronic signatures, and recognizes electronic signatures as legally binding and equivalent in force and effect as a traditional signature made created when a person physically marks a document with the intent to sign the record.

The District authorizes the use of DocuSign and Adobe Sign electronic signature platforms, or any future replacement of such platform to affix electronic signatures to District records.

The District Superintendent or designee is authorized to use the electronic signature platform or any future replacement of such platform to affix electronic signatures to District records as provided in this policy.

The electronic signature platform, or any future replacement of such platform, is authorized to affix electronic signatures to the following District records:

SUMNER-BONNEY LAKE SCHOOL DISTRICT

A GREAT PLACE TO LEARN.

- Minutes of School Board Meetings;
- Minutes of Associated Student Body Meetings;
- Resolutions adopted by the Sumner-Bonney Lake School Board;
- Claim vouchers approved by the Board; and
- Any and all contracts, agreements, business transactions or other official documents to which the District is a party

Electronic signatures shall not be used on District records requiring execution by a third party.

The Board shall modify, rescind, or replace this policy at any time.

Electronic signatures cannot be applied using another employee's name. Records signed on behalf of the Superintendent or designee shall use their own electronic signatures.

An electronic signature is an acceptable substitute for a traditional signature on records requiring the signature of any record whenever the use of a traditional signature is authorized or required, except as provided herein.

An electronic signature is used for interstate transactions for documents required by the US Federal government, the electronic signature shall comply with the requirements of the Electronic Signatures in Global and Electronic Commerce Act.

This policy in no way affects the District's ability to conduct a transaction using a physical medium and shall not be constructed as a prohibition on the use of traditional signatures.
