Content experts at the Georgia Department of Education have developed **Digital Learning Plans** for teachers and parents. These Georgia Standards of Excellence-based plans were specifically designed as support for school districts, administrators, teachers, and parents who are working tirelessly to provide students with quality content.

The plans are easy-to-use and include both “plugged and unplugged” activities. Check back for more **Digital Learning Plans** in each content area as they are updated weekly. For **Digital Learning Plans** to enhance student learning, please see [these examples](#).

Sample Visual Digital Art Learning Plan

Big Idea/ Topic

Line Creativity Lesson

ENDURING UNDERSTANDING:

Using the element of line to create shapes that become an image from the imagination.

TECHNICAL FOCUS: Students will gain an understanding of the element of how line creates shape in 2-D drawing/painting with a focus on creating from the imagination. Students will focus on various 2-dimensional drawing skills, proper care and materials management, and craftsmanship. Students will focus on the creation of artworks that fill the composition.

ESSENTIAL QUESTIONS:

- What are the types of lines?
- Why are lines important as an element of art?

Standard Alignment

CREATING

VA1.CR.1 Engage in the creative process to generate and visualize ideas by using the subject matter and symbols to communicate meaning.

- Generate individual and group ideas in response to visual images and personal experiences.
- Generate visual images in response to open-ended prompts, themes, and narratives.
- Produce multiple prototypes in the planning stages for works of art (e.g., sketches

3 - Let's Learn Georgia Videos

Let's Learn GA! Model Lessons

Students, parents, teachers: Let's Learn GA! model lessons are an excellent way to learn K-5 content aligned to the Georgia Standards of Excellence from Georgia teachers. Content includes English language arts, fine arts, mathematics, nutrition, physical health and wellness, science, and social studies. Students, classrooms, and families can watch to learn content; teachers can use for professional development ("what a great way to teach that lesson!").

LLG Instructional Support

Teachers, instructional coaches, administrators: LLG (Let's Learn GA!) instructional support videos offer professional development in ways to establish a positive classroom climate, improve engagement, and teach mathematics. These short videos can be used in formal professional development or as quick ways to refresh or learn new instructional supports and academic content.

4 - Getting Ready Guides

These skills will help families understand what children have already learned and can expect to learn as they enter a new grade level. These are meant to be guides since every student learns at his or her own pace. Teachers will be ready to meet students where they are when they reach a new grade level.

[Upstream Prevention Strategies for the Whole School Community](#)

When it comes to mental health, we often take a downstream approach, only focusing on individual treatment. Upstream approaches utilize prevention strategies for the whole school community. In this session, participants will learn what upstream prevention is and why it's important, particularly for suicide and other risk behavior prevention (e.g., substance use/misuse, bullying behaviors). A panel of state and district leaders will discuss upstream prevention examples. Participants will also learn about start-up funding opportunities for the upstream prevention program, Sources of Strength, via Project AWARE and the State Opioid Response Grants.

GaDOE Competitive Grants

A competitive grant is a discretionary grant that is awarded through a process defined by the Georgia Department of Education (GaDOE). Periodically, funding is available for GaDOE to award to districts and schools in the form of competitive grants,
