**Content Standards Source:** Common Core Standards/Pennsylvania State Standards
**Teaching Task:** Design your teaching task.

**Background to share with students:**
Throughout the 1800’s, the US played a limited role in world affairs. Important European nations did not think of America as a world power. This changed late in the century. Confidence as a new nation, new American leaders, and new world problems brought the US into the world picture. As a result, America had to weigh the benefits and consequence of using this newfound power.

**Prompt:**
When should the United States become involved in foreign wars? After reading informational and argumentative texts on foreign wars, write a letter to the President that addresses the question and support your position with evidence from the texts. **L2** Be sure to acknowledge competing views. **L3** Give examples from the past or current events to issues to illustrate and clarify your position.

**Reading texts:** See materials list.

**Extension (optional):**
As an extension student will send their final letters to the President of the United States of America.

Section 3: What Instruction?

How will teachers teach students to succeed on the teaching task?

All LDC instructional ladders have mini-tasks (prompt, product and mini-task scoring), instructional strategies and pacing. The following is an example instructional ladder. Module developers can adopt, adapt or delete the approaches for each section in order to build their own mini-tasks, instructional strategies and pacing to teach to skills identified in Section 2.

LDC INSTRUCTIONAL LADDER 1

Skills Cluster 1: Preparing for the Task

1. **Bridging conversation:** Ability to connect the task and new content to existing knowledge, skills, experiences, interests, and concerns.

   **Mini-task**

   - **Mini-task scoring:**
     | Meets | Not yet |
     | --- | --- |
     | Focus Correction Areas (FCA’s): will address organization, 3rd person perspective, ability to state a position clearly. | Attempts to meet the criteria for “meets.” |

   **Instructional strategies**
   - Teach or review content required for the task depending on when in the sequence they teach the content – before or during the production of the task. If teaching Levels 2 and/or 3, discuss the demands embedded in these levels as well.

   **Pacing Day 1**

2. **Project planning:** Ability to plan so that the task is accomplished on time.

   **Mini-task**
   - **Prompt:** Create a project timeline.
   - **Product:** Timeline
   - **Mini-task scoring:**
     | Meets | Not yet |
     | --- | --- |

dear Ms. Turlington:

I understand from our mutual acquaintance, Chad Johnson, that you are looking to retain an accounting firm to assist you in the sale of your business. I would welcome the opportunity to show you how OP & Associates was able to help Chad successfully sell his business earlier this year.

As you’ll see on our Web site, my associates and I have extensive experience in finance/accounting, internal audits, and tax compliance. For the past several years, we have specialized in business valuation and transaction services for sellers. We enjoy working closely with clients throughout the sale process to ensure a smooth transition. As our clients can attest, our various pre-sale price improvement strategies can significantly optimize a business’s sale price.

Should you be thinking of purchasing another business, please note that we also offer business acquisition services. For your reference, I have enclosed additional information describing OP & Associates’ full range of services.

To set up an appointment to discuss your specific needs, please contact me at 203-459-0037. I know how busy you are, so I will give you a call on Tuesday to follow up if I haven’t heard from you.

Best regards.

Greg Parker

Why Cite?

Why is it important to provide parenthetical citations in your writing?

Why Cite?

• It gives credit to the person who published the work: In order to avoid plagiarism, it is important to clearly acknowledge the person or persons who created or authored the work.

• It makes the writing more believable or credible: Citing research helps the writer gain the reader’s trust. It’s important for the reader to believe that what the author is saying is true.

Why Cite?

• It’s a courtesy to the reader: Citing evidence from the reading includes telling the reader where the information came from so that the reader can find the information easily and do additional research if he or she so chooses.

• It is an expectation for academic writing: Scholars engage in academic conversations through writing. Providing parenthetical citations allows these writers to respond to one another by agreeing with, disagreeing with, and adding to another person’s work.

Example Sentence Starters for Citing Sources

• According to Tapper, the Lusitania was sunk by a German U-boat and 128 Americans died.

• In his speech, President Obama argues that Muammar Gaddafi was murdering innocent Libyans.

• In the “Just War Theory” Christian philosophers argue two points: killing is wrong and a country has a duty to protect its people and promote justice.

Justification for Going to War – *jus ad bellum*

A clear set of principles regarding *jus ad bellum* (justifiable reasons for going to war) was first developed by early Christian philosophers/theologians as they attempted to reconcile two conflicting propositions:

- purposeful taking of human life is wrong
- states have a duty to defend their citizens and promote justice.

Very early Christians believed that killing was absolutely forbidden. But as more and more Romans converted to Christianity, the question arose whether it was possible to be a Roman soldier and a Christian at the same time. This question was discussed by the early Christian theologian Augustine of Hippo (354 – 430 B.C.E.) in many of his writings and sermons. Later, the Roman Catholic priest St. Thomas Aquinas (c.1225 – 1274) synthesized Augustine’s arguments regarding justifiable warfare into a clear set of principles.

Today, the principles most often used for determining whether going to war is justified (*jus ad bellum*) are:

1. **Just cause/right intention:** A just war must be fought only for purposes of self-defense against armed attack or to right a serious wrong.
2. **Proper authority:** A war is just only if waged by a legitimate authority.
3. **Last resort:** A just war must be the last resort; all peaceful options must be exhausted before the use of force can be justified.
4. **Probability of success:** There must be a reasonable chance of success; deaths and injury that result from a hopeless cause cannot be morally justified.
5. **Beneficial outcome:** The outcome of the war must be better than the situation that would exist had the war not taken place.
6. **Proportionality:** The violence and destruction must be proportional to the injury suffered.

As Professor Mark Rigstad points out, “Just war theory is not a settled doctrine. It is a field of critical ethical reflection. That's why there are as many just war theories as there are just war theorists.” Different people will include different principles on their lists, or interpret the same principle in different ways. We should also remember that the concept of a “just war” is totally rejected by many people who argue either from a pacifist point of view that killing is always wrong, or from a realpolitik position that force is just another strategy for pursuing national interests.
Is there a justification for acts of war?
