## Mad Science® NASA: Academy of Future Space Explorers

Mad Science and NASA have teamed up to develop this sensational series of enrichment sessions, featuring exciting activities and the wonder of space. Children will be taken on a voyage of space discovery through hands-on activities, amazing demonstrations and take home experiments with each class. Explore the sun, moon, stars and planets; including Earth's own atmosphere and other space phenomena. Learn what it's like to travel and live in space, and work with the technology that has been developed for space exploration. Investigate the forces of flight by building your own ROCKET! By presenting an experience that is truly out of this world, we hope to inspire future space scientists and maybe even astronauts to Mars and beyond...
