

203 Piper State Assessment Review for Budget Needs Assessment July 2023

203 Piper District Summary

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

There are always a number of challenges that should be considered when evaluating student success in a district. Some of the key barriers that impact our School District include, but are not limited to:

- Difficulty in scheduling and finding more time to provide teacher/staff collaboration that would support improved student learning
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- High or increased levels of homeless students and families and foster care families
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Lack of or limited access to quality Pre-K education
- Lack of or limited access to community health services and mental health services
- An increasing level of social emotional challenges and needs of students
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Our School District faces a number of budget challenges when determining how to allocate funds to best meet the needs of our students. Given our population, the following budget considerations could have the biggest impact on student achievement:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional staff members hired to meet the individual learning and SEL needs of all students
- Increase paraeducator support in special education classrooms
- Maintain low teacher/pupil ratio for greater individualized instruction
- Allocating budget to focus on prevention, identification, and intervention concerning trauma and mental health issues

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

- Our ever-changing student population brings a varying degree of cognitive abilities and disabilities which precludes us from being able to guarantee a date when all students will meet a singular level of proficiency.
- While assessment scores are one measure, our district does not believe that student assessment scores should be the sole measure of student proficiency
- Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency

Piper Creek Elementary Building State Assessment Review

District: 203 Piper

School: Piper Creek Elementary

Building Number: 0187

Grades Served: Grades 3-5

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges at this school include:

- Difficulty in scheduling and finding more time to provide teacher/staff collaboration that would support improved student learning
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Special Education funding shortfall has limited supports of our highest need students
- Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss
- We do not receive disaggregated and approved state assessment scores until October of a school year, which limits the amount of time we have to make adjustments based on that data
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Given an appropriate level of funding for both general education and special education, there are a number of budget actions we could take to remove some barriers. Some of them include:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional staff members hired to meet the individual learning and SEL needs of all students
- Increased funding and time for staff development
- Increase paraeducator support in special education classrooms

- Maintain low teacher/pupil ratio for greater individualized instruction

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

While our board of education, administration, teachers and classified staff work tirelessly to meet the academic and social emotional needs of all of our students, too many factors come into play that do not allow us to accurately assess when all students will be at a certain level. Some of those factors include:

- Our ever-changing student population brings a varying degree of cognitive abilities and disabilities which precludes us from being able to guarantee a date when all students will meet a singular level of proficiency.
- The current and future levels of school funding have a significant impact on student learning and any increases or decreases have an affect on student success. Any changes to those funding levels, in either direction, impact the ability of students to meet proficiency criteria.
- Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency

Piper Middle School Building State Assessment Review

District: 203 Piper

School: Piper Middle School

Building Number: 0189

Grades Served: Grades 6-8

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges at this school include:

- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- Lack of or limited access to community health services and mental health services
- Special Education funding shortfall has limited supports of our highest need students
- Increased or high levels of student discipline issues, including high numbers of suspensions and/or expulsions
- Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss

(B) Identify the budget actions that should be taken to address and remove those barriers.

Our students face a growing number of barriers to success and this school continually works to support them. Current budget constraints that impact our ability to successfully remove barriers for our students include:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional staff members hired to meet the individual learning and SEL needs of all students
- Increased funding and time for staff development
- Increase paraeducator support in special education classrooms
- Maintain low teacher/pupil ratio for greater individualized instruction

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if

the budget actions would be implemented.

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

- Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.

Piper High School Building State Assessment Review

District: 203 Piper

School: Piper High School

Building Number: 0190

Grades Served: Grades 9-12

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

There are always a number of challenges that should be considered when evaluating student success in a district. Some of the key barriers that impact this school include, but are not limited to:

- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Difficulty in retaining and attracting highly qualified teachers and replacing teachers as they retire
- Special Education funding shortfall has limited supports of our highest need students
- Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- Lack of, limited, or difficulties in engaging parents in the educational process

(B) Identify the budget actions that should be taken to address and remove those barriers.

This school faces a number of budget challenges when determining how to allocate funds to best meet the needs of our students. Given our population, the following budget considerations could have the biggest impact on student achievement.

- Increased salary to recruit and retain high quality certified and classified staff
- Increased funding and time for staff development
- Increase paraeducator support in special education classrooms
- Increased funding to expand extended school year and summer school programs for students
- Maintain low teacher/pupil ratio for greater individualized instruction

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if

the budget actions would be implemented.

There is no way to accurately predict how children will respond to our interventions because we cannot fix the daily challenges they face. Many factors impact students' academic achievement, such as:

- The current and future levels of school funding have a significant impact on student learning and any increases or decreases have an affect on student success. Any changes to those funding levels, in either direction, impact the ability of students to meet proficiency criteria.
