

Art Literacy Categories

Each year TTSD students will learn about several artists, their art style, and medium from within the variety of categories listed below.

Between Kindergarten and the fifth grade a student will have been introduced to the artwork of about 50-75 artists, then produce just as many associated grade level art projects of their own. The students learn how use different art mediums as they create projects that are either inspired by a specific piece of artwork, or open to self-expression.

- Cultural
- Renaissance
- Impressionist
- European
- Illustrators & Others
- Modern
