Timeline Regarding Elementary Return to In-Person

TTSD is pleased to provide the following information and timeline for our elementary families with students planning to return to hybrid in-person classes:

Monday, March 1: If a change in teacher assignment is needed, we will communicate to families by the end of the workday.

Thursday, March 11th and Friday, March, 12th: No school and no conferences

- Elementary teachers and staff will be receiving important safety training and getting their classrooms ready for safe and socially-distant hybrid instruction.
- If your student is assigned a new teacher, there will be a virtual meet and greet before students are back in the building. More details will be shared when we have that information.

March 22-26: Spring Break

Monday, March 29: We will welcome back our kindergarten and 1st grade hybrid students to begin learning in the building. All students changing classes at grades 2-5 also transition on this day.

Monday, April 5: We will welcome back 2nd, 3rd, 4th and 5th grade hybrid students to begin learning in the building.

Ipad battery not charging? / ¿La batería del iPad no se carga?

Feel like your student's iPad isn't charging so well these days? It may not be the charger's fault. Here are two quick tips to help the iPad work better.

1. How many videos does your student have stored in the Photos folder? Lots of videos can bog down your device's memory storage making it slower.
2. How many Safari tabs does your student have open? When you click on Safari , you should see an icon at the top right that looks like two overlapping squares. If you click this, you'll see all the tabs that are open. Your iPad is constantly updating these tabs, so if you have a lot open, it will significantly restrict the devices ability to charge.
3. You can also set the device to automatically close tabs each day/week if you'd like. Go to Settings>Safari>Close Tabs & choose how often you want the tabs to close.

¿Siente que el iPad de su estudiante no se está cargando tan bien en estos días? Puede que no sea culpa del cargador. Aquí hay dos consejos rápidos para ayudar a que el iPad funcione mejor.

1. ¿Cuántos videos ha almacenado su estudiante en la carpeta Fotos? Muchos videos pueden atascar el almacenamiento de memoria de su dispositivo haciéndolo más lento.
2. ¿Cuántas pestañas de Safari tiene abiertas su estudiante? Al hacer clic en Safari, debería ver un icono en la parte superior derecha que parece dos cuadrados superpuestos. Si hace clic aquí, verá todas las pestañas que están abiertas. Su iPad actualiza constantemente estas pestañas, por lo que si tiene muchas abiertas, restringirá significativamente la capacidad de carga del dispositivo.
3. También puede configurar el dispositivo para que cierre pestañas automáticamente cada día / semana si lo desea. Vaya a Configuración> Safari> Cerrar pestañas y elija la frecuencia con la que desea que se cierren las pestañas.
