

Dear Bridgeport Community --

We wanted to share an update on the exciting bond work upcoming at Bridgeport Elementary School. For those that may be unfamiliar, this work will include:

- New Main Office at the front of the school with secure vestibule entrance
- New Counseling Office and renovated Classroom in location of former Main Office
- Seismic reinforcement to the gymnasium, ceilings and fire sprinkler lines

On the path to groundbreaking this coming June 2018, here are some recent project milestones:

- Bridgeport was the recipient of an Oregon Seismic Rehabilitation Grant to fund our necessary seismic upgrades
- Drawings have been submitted to the City of Tualatin and Washington County to secure required permits
- TS Gray has been selected as the General Contractor to perform the work based on Bid Price; they are also currently serving as General Contractor for the Durham Education Center addition
- A clean-up effort is occurring to prepare the impacted classrooms and offices for moves and construction

Later this Spring, Families should expect:

- Additional newsletter(s) on construction impacts and safety plans, schedule and work hours at Bridgeport
- Invitation to the Bridgeport Groundbreaking Ceremony in Spring / Summer
- Progress updates on the Bond website: bond.ttsdschools.org

Should you have any questions on the project and upcoming construction at our school, please be in touch.
