

Twality Middle School

Hello Twality Middle School Families,

We are writing to update you on the exciting work that is taking place to rebuild Twality Middle School. This project, which began in the summer of 2019, is anticipated to be completed in early 2021. The contractors continue to work, with strong safety practices in place in adherence with all COVID-19 safety guidelines. They are currently framing the second story classroom wings, pouring foundations for the new gym and administration areas, and installing HVAC ductwork. We look forward to the completion of the following new spaces that will modernize Twality significantly:

- A new media center, commons, gymnasium, visual arts classrooms and makerspace facility will enhance our existing curriculum spaces and provide new opportunities for students to explore elective options
- A new centralized administration office and secure vestibule entrance will enhance school security and visibility
- Classrooms fully wired for technology with flexible “extended learning areas” connecting rooms
- Improved parent and bus pick-up and drop-off circulation
- Pedestrian and bike routes between Templeton and Twality to support student safety

As this project has progressed, Twality students and staff have demonstrated great flexibility and patience as their new school is being constructed. The entire TTSD community is excited for them to enjoy a brand new facility once construction is completed in 2021.

Twality's new commons and cafeteria

Escuela Secundaria Twality

Hola Familias de la Secundaria Twality,

Les escribimos para compartir sobre el emocionante trabajo que se está realizando para reconstruir la Escuela Secundaria Twality. Se espera que este proyecto, que comenzó en el verano de 2019, se complete a principio de 2021. Los contratistas continúan trabajando, con prácticas de seguridad sólidas en cumplimiento de todas las pautas de seguridad de COVID-19. Actualmente están enmarcando las clases del segundo piso, colocando los cimientos para el nuevo gimnasio y las áreas administrativas, e instalando conductos HVAC. Esperamos con interés la finalización de los siguientes espacios nuevos que modernizará a Twality significativamente:

- Centro de medios nuevo, área común, gimnasio, salón de clase de artes visuales e instalación de Makerspace mejorarán nuestros espacios curriculares existentes y proporcionarán oportunidades nuevas para que los estudiantes exploren opciones electivas
- Oficina nueva de administración centralizada y entrada segura al vestíbulo mejorará la seguridad y visibilidad
- Salones de clase completamente conectados para la tecnología con "áreas de aprendizaje extendidas" flexibles y salas conectadas.
- Mejora de circulación para recoger y dejar a estudiantes para los padres y los autobuses

- Rutas peatonales y de bicicleta entre Templeton y Twality para apoyar la seguridad de los estudiantes

A medida que este proyecto ha progresado, los estudiantes y el personal de Twality han demostrado una gran flexibilidad y paciencia mientras se construye su nueva escuela. Toda la comunidad de TTSD están emocionados de que disfruten de una nueva instalación una vez que se complete la construcción en 2021.

Nuevo área común y cafetería de Twality

Hello Twality Middle School Families,
