

On-Boarding Instructions: Chromebooks

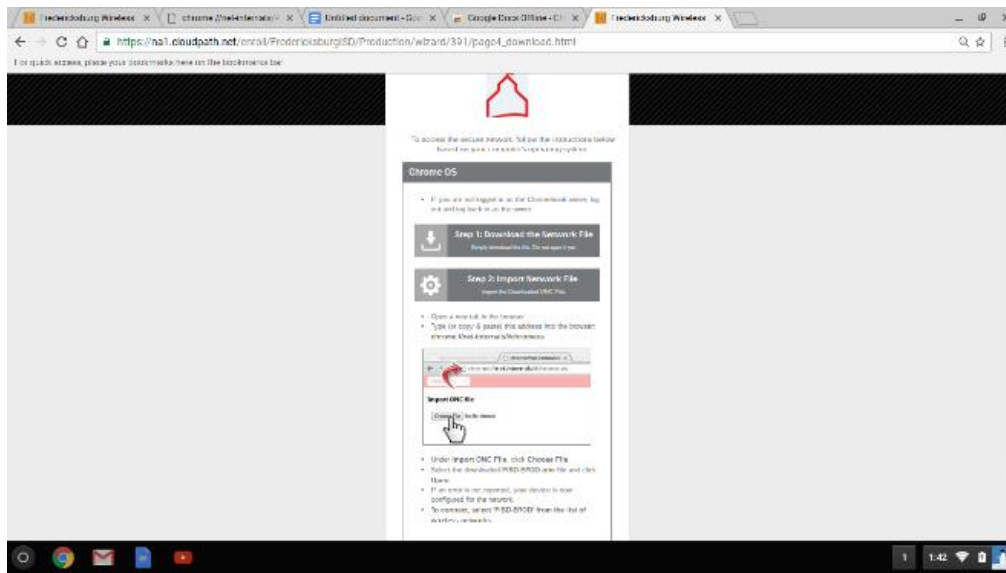

1. Sign into your Chromebook
2. Open your WiFi settings
3. Connect to FISD-Onboarding
4. Open Chrome and navigate to 2.2.2.2
5. Click the Start Button

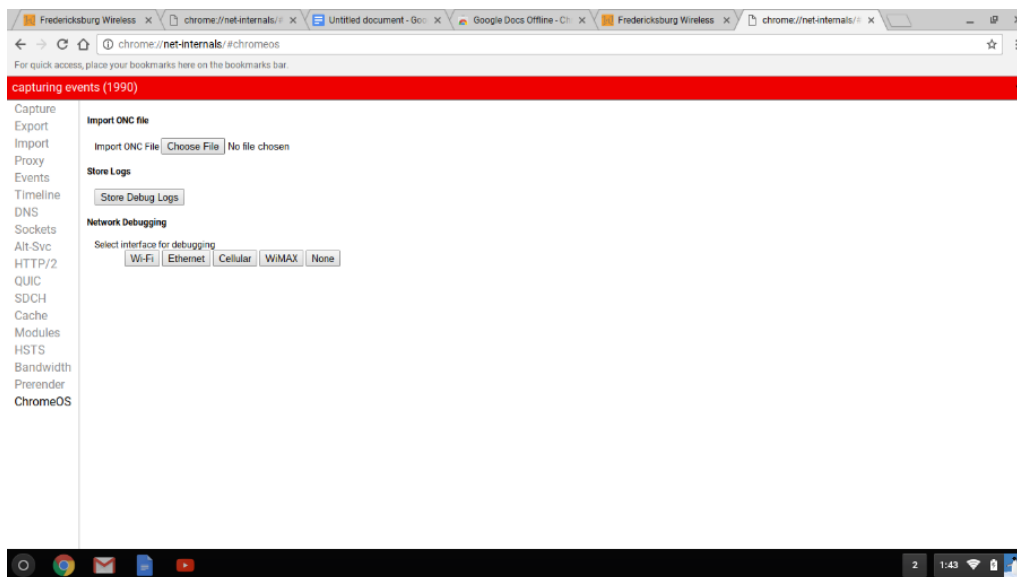

6. Enter your email address and computer password

7. Click Step1: Download the Network File

8. Open a new tab and go to chrome://net-internals/#chromeos

9. Click Choose File.

10. Select the FISD-BYOD.onc file and click Open.

Note you will not see the file listed after selecting it.

11. If you do not see an error, open your WiFi settings and select FISD-BYOD.

12. Then click Connect.
