

# BUCKLEY CABLE CONSTRUCTION

## FIBERMASTERS

3601 W 9TH ST  
TRAINER, PA 19061

### About Us

Buckley Cable Construction was founded by Kevin Buckley, Sr. in 1980. In the years prior to starting his company he was traveling the country helping Telecommunication companies build and maintain their networks. After years of experience and a strong knowledge of the business he bought his first two trucks and started to build his own company. Over time and with years of hard work Buckley Cable Construction grew from a two-truck fleet to a multimillion-dollar corporation.

### Services

We are committed to providing our clients with quality service, performed on a timely basis with emphasis on supervision, safety, and appearance. With our current equipment & work force, we are capable of any cable or fiber construction at 500 miles of completed system per month!
