**User Obligations & Responsibilities - 2021**

The use of Schoology messaging is essential for communication between teachers and students. Students must use computers appropriately, agree to all rules of etiquette established by ACCESS, and sign a statement acknowledging their understanding and acceptance of these rules. These will include the following:

- Students will use ACCESS Virtual Learning and its resources only for purposes related to education. Commercial, political, and/or personal use unrelated to an educational purpose is strictly prohibited.
- Students will use computers with consideration and respect. They are prohibited from accessing, posting, submitting, publishing, or displaying harmful matter or material that is obscene, threatening, disruptive, or sexually explicit; that could be construed as harassment, disparagement, or cyber bullying of others (based on their race, national origin, sex, sexual orientation, age, disability, religion, or political beliefs); or that is intended to annoy, harass, intimidate, disrupt the operation of the program, or interfere with the rights of other students or ACCESS staff.
- Vandalism will result in the cancellation of user privileges. Vandalism includes the intentional uploading, downloading, or creating of computer viruses and/or any malicious attempt to harm or destroy materials, data, or equipment.
- Students will give credit to others whose work is used. Neither Internet content nor the work of WBI or VCI classmates will be cut, copied, or plagiarized. Students will abide by all copyright rules and regulations.
- Students may not redistribute ACCESS course materials outside of the learning management system (LMS). This includes assignment files featuring student work. Unauthorized distribution of such materials is a violation of academic standards and may violate copyright laws and/or privacy rights.
- Students will consider the social consequences of work completed and any programs written in conjunction with classroom assignments.
- Students will communicate via Schoology messaging cautiously and with discretion. ACCESS Virtual Learning reserves the right to monitor any online communication(s) for improper use. Electronic communications and downloaded material, including files deleted from a user's account, may be monitored or read by ACCESS officials or their designees. Student responsibilities include, but are not limited to, the following:
  - Refrain from including information in Schoology messages that are not appropriate for printing or discussion in a public setting. Privacy cannot be assured in Schoology messaging communications.
