

Welcome:

- At 7:45A chapter leader Theo Kirk opens with a welcome and review of agenda.

Words from the Chancellor

- Chancellor Koenig thanked dads for their participation with car duty since start of school year.
- He recognized CHISD APD impact and has shared the APD concept with his previous district.
- He also informed dads to expect more opportunities to get engaged very soon.

Intro of Team Captains

- Team Captains and Leaders JC Betts, Travis Trevino, Brent Rusk, Philip Campbell, Chris Harris and Theo Kirk introduced themselves and their respective areas.
- Each gave a brief on the impact of the program within the home, school, and community.
- We also recognized that our campus represents over 10% of CHISD APD membership at 120 and growing.

Being Unique Activity

- 5 minute activity where dads and scholars discussed what it means to be unique.

Activity Recap

- 3 families volunteered to share their experience.

Getting Involved

- PTA president and APD Bruce Douglas solicited help to purchase a canopy for our playground.
 - APD M. Beckles announced he is donating an artwork piece for auction to help the cause.
 - Other ideas will be discussed next meeting.
- We need more AM and PM greeters. Even if it is only for 5 minutes. We received some feedback from moms that we are not showing up consistently and need to correct this.

Raffle

- A raffle was held for an APD yard sign and a t-shirt.

Wrap Up

- The breakfast was a hit and dads agreed we should hold monthly. Next date coming soon.
- We welcomed our newest Team Captain for 5th Jeff Robinson. Welcome to the team!
- Breakfast ends at 7:53A.

Lessons Learned

We went 8 minutes over plan due to delays in getting scholars in the cafeteria due to manual written names list. Our online RSVP form has been updated to include scholars name(s) to streamline going forward.

On Being Unique

During the exercise I realized that our school is very unique and is impacting parents and scholars. As an open district we now have scholars from across DFW. The majority of which are being driven to school generating more car traffic than most of us are used to. As parents it is not as convenient as it once was to get in and out.

In the classroom our scholars are being challenged in new ways and are experiencing innovations in education that our campus provides. This may cause a shift in grades up or down however the learning process is what is critical to future success. The end results of these growing pains are scholars who will be better prepared to handle complex challenges in college, life, and industry.

In my opinion these are small trade-offs for a larger benefit that will shape our scholars into capable and effective leaders in whatever endeavor they choose. I encourage you to “Be Bold” and embrace the uniqueness that is Collegiate Prep.
