

As we prepare for students to return to River Valley School District's Blairsville Campus, please be aware that the site is currently under construction. Please be alert and use caution when entering the campus. To maintain safety, please follow the campus security directions at all times.

Traffic procedures for the campus have changed slightly this year:

- Parents must enter the campus from the northbound lane of Cornell Rd. They will be stopped at the campus entrance and wait until security releases them. Arrive on campus using Cornell Rd. from the Sheetz intersection. All traffic must turn left into the campus driveway at pick up and dismissal times.
- Middle and High school parent pickup will start at 2:44 - 3:00 pm after all district transportation has exited the bus lane.
- Blairsville Elementary parents may begin lining up for pick up at 3:30 pm and will be directed through the campus by campus security.

Thank you for your patience and support to keep all of our children safe.
