

Meals are free to each student this school year, including breakfast. Every student is now entitled to one free breakfast during each scheduled school day. Secondary Locations can receive their breakfast in the cafeteria in the morning before school.

Elementary Schools will serve breakfast at designated breakfast tables each morning, which will be monitored by our Food Service staff.

Why Is Breakfast Important?

It is our mission to ensure students have access to breakfast each morning, so they have a nutritious start to their day and are fully ready to learn!
