	<b>Unit 1</b>	<b>Unit 2</b>	<b>Unit 3</b>	<b>Unit 4</b>
<b>Number of Weeks</b>	<b>10</b>	<b>10</b>	<b>10</b>	<b>10</b>
<b>Topic</b>	<i>Health and Wellness</i>	<i>Relationships/Family Life/Sexuality</i>	<i>Alcohol, Tobacco, and Other Drugs</i>	<i>Community Health Skills</i>
<b>Standards</b>	<ul style="list-style-type: none"> <li>• 2.1.12.PGD.1: Develop a health care plan that includes practices and strategies designed to support an active lifestyle, attend to mental health, and foster a healthy, social and emotional life.</li> <li>• 2.1.12.PGD.2: Predict how healthy and unhealthy behaviors can affect brain development and impact physical, social and emotional stages of early adulthood.</li> <li>• 2.1.12.EH.1: Recognize one's personal traits, strengths, and limitations and identify how to develop skills to support a healthy lifestyle.</li> <li>• 2.1.12.EH.2: Analyze factors that influence the emotional and social impact of mental health illness on the family.</li> <li>• 2.1.12.EH.3: Describe strategies to appropriately respond to stressors in a variety of situations (e.g., academics, relationships, shootings, death, car accidents, illness).</li> <li>• 2.1.12.EH.4: Analyze and adapt mental and emotional health messages and communication techniques to peers and other specific target audience (e.g., dimensions of health).</li> <li>• 2.1.12.SSH.1: Analyze the influences of peers, family, media, social norms and culture on the expression of gender, sexual orientation, and identity.</li> </ul>	<ul style="list-style-type: none"> <li>• 2.1.12.PGD.1: Develop a health care plan that includes practices and strategies designed to support an active lifestyle, attend to mental health, and foster a healthy, social and emotional life.</li> <li>• 2.1.12.PGD.2: Predict how healthy and unhealthy behaviors can affect brain development and impact physical, social and emotional stages of early adulthood.</li> <li>• 2.1.12.PP.1: Compare and contrast the advantages and disadvantages of contraceptive and disease prevention methods (e.g., abstinence, condoms, emergency contraception, dental dams).</li> <li>• 2.1.12.PP.2: Develop a plan to eliminate or reduce risk for unintended pregnancy and/or STIs (including HIV) and identify ways to overcome potential barriers to prevention.</li> <li>• 2.1.12.PP.3: Identify trusted adults, including family members, caregivers, school staff, and health care professionals to ask questions and discuss pregnancy and other health topics.</li> <li>• 2.1.12.PP.4: List the major milestones of each trimester of fetal development utilizing medically accurate information.</li> <li>• 2.1.12.PP.5: Analyze factors that can impact the health of a baby (e.g., fetal alcohol syndrome, sudden infant death syndrome, low birth weight, premature birth, genetics).</li> </ul>	<ul style="list-style-type: none"> <li>• 2.1.12.PGD.1: Develop a health care plan that includes practices and strategies designed to support an active lifestyle, attend to mental health, and foster a healthy, social and emotional life.</li> <li>• 2.1.12.PGD.2: Predict how healthy and unhealthy behaviors can affect brain development and impact physical, social and emotional stages of early adulthood.</li> <li>• 2.1.12.EH.1: Recognize one's personal traits, strengths, and limitations and identify how to develop skills to support a healthy lifestyle.</li> <li>• 2.1.12.EH.2: Analyze factors that influence the emotional and social impact of mental health illness on the family.</li> <li>• 2.1.12.EH.3: Describe strategies to appropriately respond to stressors in a variety of situations (e.g., academics, relationships, shootings, death, car accidents, illness).</li> <li>• 2.1.12.EH.4: Analyze and adapt mental and emotional health messages and communication techniques to peers and other specific target audience (e.g., dimensions of health).</li> <li>• 2.1.12.CHSS.1: Analyze the opportunities available at home, in school, and in the community to support the mental health of oneself or an individual.</li> </ul>	<ul style="list-style-type: none"> <li>• 2.1.12.EH.3: Describe strategies to appropriately respond to stressors in a variety of situations (e.g., academics, relationships, shootings, death, car accidents, illness).</li> <li>• 2.1.12.SSH.4: Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others (defining and understanding the laws of consent and dating violence).</li> <li>• 2.1.12.CHSS.5: Analyze a variety of health products and services based on cost, availability, accessibility, benefits and accreditation in the home, school, and in the community (e.g., suicide prevention, breast/testicular self-examination, CPR/AED, life skills training, menstrual products).</li> <li>• 2.1.12.CHSS.6: Evaluate the validity of health information, resources, services, in school, home and in the community.</li> <li>• 2.1.12.CHSS.7: Describe how individuals and local, state, and global advocacy organizations can collaborate to address common local and global health and social issues (e.g., hunger, clean water, organ/tissue donation).</li> <li>• 2.1.12.CHSS.8: Investigate how local, state, and global agencies are addressing health issues caused by climate change and share this information in an appropriate setting.</li> </ul>

<ul style="list-style-type: none"> <li>• 2.1.12.SSH.2: Advocate for school and community policies and programs that promote dignity and respect for people of all genders, gender expressions, gender identities, and sexual orientations.</li> <li>• 2.1.12.SSH.3: Analyze current social issues affecting perceptions of sexuality, culture, ethnicity, disability status and make recommendations to address those issues.</li> <li>• 2.1.12.SSH.4: Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others (defining and understanding the laws of consent and dating violence). <ul style="list-style-type: none"> <li>• 2.1.12.CHSS.1: Analyze the opportunities available at home, in school, and in the community to support the mental health of oneself or an individual.</li> </ul> </li> <li>• 2.1.12.CHSS.2: Develop an advocacy plan for a health issue and share this information with others who can benefit.</li> <li>• 2.1.12.CHSS.5: Analyze a variety of health products and services based on cost, availability, accessibility, benefits and accreditation in the home, school, and in the community (e.g., suicide prevention, breast/testicular self-examination, CPR/AED, life skills training, menstrual products).</li> <li>• 2.1.12.CHSS.6: Evaluate the validity of health information, resources, services, in school, home and in the community. <ul style="list-style-type: none"> <li>• 2.1.12.CHSS.7: Describe how individuals and local, state, and global advocacy organizations can collaborate to address common local and global health and social issues (e.g., hunger; clean water; organ/tissue donation).</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• 2.1.12.PP.6: Analyze personal and societal factors that can influence decisions about pregnancy options, including parenting, abortion, safe haven, and adoption.</li> <li>• 2.1.12.PP.7: Analyze the emotional, social, physical, and financial effects of being a teen or young adult parent.</li> <li>• 2.1.12.PP.8: Assess the skills needed to be an effective parent. <ul style="list-style-type: none"> <li>• 2.1.12.PP.9: Evaluate parenting strategies used at various stages of child development based on reliable sources of information.</li> </ul> </li> <li>• 2.1.12.EH.1: Recognize one's personal traits, strengths, and limitations and identify how to develop skills to support a healthy lifestyle.</li> <li>• 2.1.12.EH.2: Analyze factors that influence the emotional and social impact of mental health illness on the family.</li> <li>• 2.1.12.EH.3: Describe strategies to appropriately respond to stressors in a variety of situations (e.g., academics, relationships, shootings, death, car accidents, illness).</li> <li>• 2.1.12.EH.4: Analyze and adapt mental and emotional health messages and communication techniques to peers and other specific target audience (e.g., dimensions of health).</li> <li>• 2.1.12.SSH.1: Analyze the influences of peers, family, media, social norms and culture on the expression of gender, sexual orientation, and identity.</li> <li>• 2.1.12.SSH.2: Advocate for school and community policies and programs that promote dignity and respect for people of all genders, gender expressions, gender identities, and sexual orientations.</li> <li>• 2.1.12.SSH.3: Analyze current social issues affecting perceptions of</li> </ul>	<ul style="list-style-type: none"> <li>• 2.1.12.CHSS.9: Develop an action plan to assist individuals who have feelings of sadness, anxiety, stress, trauma, or depression and share this information with individuals who will benefit.</li> <li>• 2.1.12.SSH.1: Analyze the influences of peers, family, media, social norms and culture on the expression of gender, sexual orientation, and identity. <ul style="list-style-type: none"> <li>• 2.1.12.SSH.2: Advocate for school and community policies and programs that promote dignity and respect for people of all genders, gender expressions, gender identities, and sexual orientations.</li> </ul> </li> <li>• 2.1.12.SSH.3: Analyze current social issues affecting perceptions of sexuality, culture, ethnicity, disability status and make recommendations to address those issues.</li> <li>• 2.1.12.SSH.4: Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others (defining and understanding the laws of consent and dating violence).</li> <li>• 2.1.12.SSH.5: Demonstrate ways to show respect for the boundaries of others as they relate to intimacy and sexual behavior.</li> <li>• 2.1.12.SSH.9: Analyze the personal and societal factors that could keep someone from leaving an unhealthy relationship.</li> <li>• 2.1.12.SSH.10: Analyze the state and federal laws related to minors' ability to give and receive sexual consent and their association with sexually explicit media.</li> </ul>	<ul style="list-style-type: none"> <li>• 2.3.12.PS.1: Apply a thoughtful decision-making process to evaluate situations and influences that could lead to healthy or unhealthy consequences (e.g., peers, media).</li> <li>• 2.3.12.PS.8: Develop strategies to communicate effectively, safely, and with empathy when using digital devices in a variety of situations (e.g., cyberbullying, sexting).</li> </ul>

<b>Skills</b>	*The students will be able to understand that eating habits and diet will have lifelong effects on numerous health issues which will have a major impact on their futures.	*The students will be able to compare and contrast healthy versus unhealthy interpersonal relationships.	*The students will be able to investigate the use and abuse of over-the-counter and prescription medications and their correlation to abuse.	*The students will be able to discuss the importance and responsibilities of first responders.

<p><i>*The students will be able to determine if physical fitness and good nutrition have a positive relationship, and a healthy diet alone is not enough to maintain proper weight and fitness levels.</i></p> <p><i>*The students will be able to learn and apply health promotion concepts and skills to support a healthy, active lifestyle.</i></p> <p><i>*The students will be able to explain the impact of personal health behaviors on the functioning of the human body.</i></p> <p><i>*The students will be able to describe the interrelationships of mental, emotional, social and physical health throughout adulthood.</i></p> <p><i>*The students will be able to analyze how family, peers, and community can influence the health of individuals.</i></p> <p><i>*Students will analyze the role of individual responsibility for enhancing health.</i></p> <p><i>*The students will be able to recognize hereditary factors that can affect non-communicable diseases related to our health and our reactions to stressful situations.</i></p> <p><i>*The students will be able to clearly identify problems related to personal hygiene and sanitation and their causes.</i></p> <p><i>*The students will be able to assess personal wellness habits.</i></p> <p><i>*The students will be able to analyze the contributions of each nutrient class to good health. (ex:</i></p>	<p><i>*The students will be able to brainstorm exit strategies to employ if involved in an unhealthy relationship.</i></p> <p><i>*The students will be able to determine personal responsibilities in the maintenance of positive relationships with family and friends.</i></p> <p><i>*The students will be able to discuss the legal ramifications of abusive behaviors.</i></p> <p><i>*The students will be able to assess the physical, mental, and emotional effects of abusive behaviors.</i></p> <p><i>*The students will be able to compare and contrast theories regarding the incidence of abusive behaviors.</i></p> <ol style="list-style-type: none"> <li>1. Genetic Predisposition</li> <li>2. Peer Pressure</li> <li>3. Lack of Strong Role Models</li> </ol> <p><i>*The students will be able to summarize intervention strategies to eliminate high risk behaviors.</i></p> <p><i>*The students will be able to assess the diverse methods of interpersonal communication.</i></p> <ol style="list-style-type: none"> <li>1. Verbal</li> <li>2. Nonverbal</li> <li>3. Electronic</li> </ol> <p><i>*The students will be able to dramatize appropriate interpersonal communication strategies.</i></p> <p><i>*The students will be able to examine factors that impact effective interpersonal communication.</i></p> <ol style="list-style-type: none"> <li>1. Peer Pressure</li> <li>2. Conflict</li> </ol>	<p><i>*The students will be able to relate injected drug use to the incidence of diseases such as HIV/AIDS and hepatitis.</i></p> <p><i>*The students will be able to analyze the societal impact of substance abuse on the individual, family, and community.</i></p> <p><i>*The students will be able to compare and contrast the incidence and impact of commonly abused substances on individuals and communities in the United States and other countries.</i></p> <p><i>*The students will be able to correlate increased alcohol use with challenges that may occur at various life stages.</i></p> <p><i>*The students will be able to correlate the use of alcohol and other drugs with incidences of date rape, sexual assault, STIs, and unintended pregnancy.</i></p> <p><i>*The students will be able to make decisions for themselves when put in role play scenarios.</i></p> <p><i>*The students will be able to demonstrate strategies for taking care of themselves and others</i></p> <p><i>*The students will be able to identify and discuss risk behaviors associated with alcohol and drug use.</i></p> <p><i>*The students will be able to discuss the potential health risks of adolescence use of alcohol and drug use on the development of the youth brain.</i></p>	<p><i>*The students will be able to recall opportunities for organ and tissue donation.</i></p> <p><i>*The students will be able to identify ways in which a conscious or unconscious person might be treated in an emergency breathing situation.</i></p> <p><i>*The students will be able to differentiate among methods for treating infants, children, and adults.</i></p> <p><i>*The students will be able to define the 3 Cs (check, call, care) in the emergency steps sequence.</i></p> <p><i>*The students will be able to practice and perform rescue breathing techniques appropriate for infants, children, and adults.</i></p> <p><i>*The students will be able to compare and contrast CPR and AED techniques.</i></p> <p><i>*The students will be able to perform rescue breathing techniques in simulated emergency situations.</i></p> <p><i>*The students will be able to demonstrate how to properly use an AED on an individual.</i></p> <p><i>*The students will be able to perform manual CPR in simulated emergency situations.</i></p> <p><i>*The students will be able to demonstrate techniques mandated by the Red Cross.</i></p> <p><i>*The students will be able to assimilate life saving techniques in the performance of Red Cross assessments.</i></p>
--	---	---	---

	<p><i>fats, carbs, protein, water, minerals, vitamins)</i></p> <p><i>*The students will be able to research dietary trends of young adults while also analyzing the impact of social media has on dietary habits and choices young adults make.</i></p> <p><i>*The students will be able to compare and contrast cultural habits that impact personal nutrition.</i></p> <p><i>*The students will be able to demonstrate the relationship between diet and illness.</i></p> <p><i>*The students will be able to identify how emotions impact depression, stress, and thoughts of suicide.</i></p> <p><i>*The students will be able to understand healthy stress management strategies and how to utilize them.</i></p> <p><i>*The students will be able to identify ways to improve or maintain good personal hygiene practices.</i></p> <p><i>*The students will be able to anticipate the consequences of the problem for self, family, and classmates by not practicing good personal hygiene and sanitation.</i></p> <p><i>*The students will be able to assess the advantages and disadvantages of personal hygiene and sanitation practices.</i></p> <p><i>*The students will be able to identify the best possible solution for him/her based on personal ability and living situation.</i></p>	<p>3. <i>Group Mentality</i> 4. <i>Self-Esteem Issues</i></p> <p><i>*The students will be able to identify the consequences technology can have on interpersonal relationships (sexting/texting).</i></p> <p><i>*The students will be able to demonstrate positive communication skills.</i></p> <ol style="list-style-type: none"> <li>1. <i>Refusal</i></li> <li>2. <i>Negotiation</i></li> <li>3. <i>Assertiveness</i></li> </ol> <p><i>*The students will be able to compare and contrast positive and negative characteristics of human relationships.</i></p> <p><i>*The students will be able to determine values and ethics that contribute to healthy interpersonal relationships.</i></p> <p><i>*The students will be able to assimilate the personal attributes of a desired friend and confidante in a visual representation.</i></p> <p><i>*The students will be able to summarize significant events that affect familial relationships.</i></p> <ol style="list-style-type: none"> <li>1. <i>Divorce</i></li> <li>2. <i>Remarriage</i></li> <li>3. <i>Pregnancy</i></li> <li>4. <i>Loss of Family Member</i></li> <li>5. <i>Abuse</i></li> </ol> <p><i>*The students will be able to develop acceptable criteria for safe dating situations, such as dating in groups, setting limits, obtaining or giving consent, or only dating someone of the same age.</i></p>	<p><i>*The students will be able to identify resistance skills to resist pressure and to engage in peer pressure to use and abuse alcohol and drug use.</i></p> <p><i>*The students will be able to explain how the brain and body responds to the use of alcohol and drugs.</i></p> <p><i>*The students will be able to explain how the body responds to alcohol and drugs.</i></p> <p><i>*The students will be able to discuss positive social practices to avoid being around alcohol and drug use.</i></p> <p><i>*The students will be able to explain the alternatives to using alcohol and drug use.</i></p> <p><i>*The students will be able to discuss resistance skills to use anabolic steroids and the long lasting use of these types of drugs.</i></p> <p><i>*The students will be able to explain how alcohol affects the mental and physical abilities needed for driving safely.</i></p> <p><i>*The students will be able to define blood-alcohol concentration (BAC).</i></p> <p><i>*The students will be able to list and explain the factors that affect blood-alcohol concentration.</i></p> <p><i>*The students will be able to compare myths and truths about the use of alcohol.</i></p> <p><i>*The students will be able to explain the difference between over-the-counter medicine and prescription medicine.</i></p>	<p><i>*The students will be able to present careers in a health industry project using technology.</i></p> <p><i>*The students will be able to identify the basic components of an emergency situation (e.g., bleeding, burns, choking, possible poisoning).</i></p> <p><i>*The students will be able to compare and contrast emergency situations to non-life-threatening situations.</i></p> <p><i>*The students will be able to illustrate the basic First Aid and care involved in an emergency situation, including basic life support.</i></p> <p><i>*The students will be able to demonstrate methods for bleeding control.</i></p> <p><i>*The students will be able to dramatize care for emergency situations (e.g., bites, broken bone or joint injury, burns, poisoning, stings)</i></p> <p><i>*The students will be able to assess the importance of the use of protective barriers in treatment of victims.</i></p> <p><i>*The students will be able to utilize technology to research legislation regarding public safety and responder liability (e.g., The Good Samaritan Law).</i></p> <p><i>*The students will be able to summarize and identify proper procedures to prevent and treat Lyme's Disease.</i></p> <p><i>*The students will be able to understand the stages of grieving.</i></p>
--	--	--	---	--

	<p><i>*The students will be able to clearly and directly state opinions and give good reason.</i></p> <p><i>*The students will be able to ask for help and advice, and seek information when needed.</i></p> <p><i>*The students will be able to identify personal hygiene and sanitation practices and the need to improve or maintain them.</i></p> <p><i>*The students are able to identify how their personal hygiene and sanitation practices may impact others.</i></p> <p><i>*The students will be able to recognize the needs of others in terms of their own personal hygiene and sanitation practices.</i></p> <p><i>*The students will be able to recognize how maintaining good personal hygiene and sanitation will support good self-esteem.</i></p> <p><i>*The students will be able to determine ways in which an individual can take responsibility for ensuring success and wellness.</i></p> <p><i>*The students will be able to properly give one's self a breast examination.</i></p> <p><i>*The students will be able to identify and explain different types of cancer.</i></p> <p><i>*The students will be able to know how to screen/test for multiple types of cancers.</i></p> <p><i>*The students will be able to identify the major organs and systems of the human body and explain how they keep us alive.</i></p>	<p><i>*The students will be able to identify and explain the function of the parts of the male and female reproductive systems.</i></p> <p><i>*The students will be able to differentiate between gender identity, gender expression, biological sex, and sexual orientation.</i></p> <p><i>*The students will be able to identify and compare different types of STI's (Sexually Transmitted Infections), identify signs and symptoms and describe treatment methods.</i></p> <p><i>*The students will be able to understand ways to get STI's and prevent them.</i></p> <p><i>*The students will be able to identify different types of contraception and understand how each method works.</i></p> <p><i>*The students will be able to explain how to prevent pregnancy and the decisions to be made related to pregnancy and childbirth that will have short and long term impacts.</i></p> <p><i>*The students will be able to describe fertilization, fetal development, and the birth process and resources available to confirm pregnancy.</i></p> <p><i>*The students will be able to compare and contrast the alternatives available to a pregnant teen.</i></p> <p><i>*The students will be able to identify the effects and consequences of the use of</i></p>	<p><i>*The students will be able to explain how depressants, stimulants, and hallucinogenic drugs affect a person.</i></p> <p><i>*The students will be able to describe the effects of combining alcohol with other drugs.</i></p> <p><i>*The students will be able to describe zero tolerance levels of impairment and how impairment can be detected and measured.</i></p> <p><i>*The students will be able to describe how peer influences and peer pressure might affect a person's decision about drinking and driving.</i></p> <p><i>*The students will be able to list five steps involved in making a responsible decision.</i></p> <p><i>*The students will be able to explain the meaning of peer education.</i></p> <p><i>*The students will be able to explain why everyone should share the responsibility of preventing friends from drinking and driving.</i></p> <p><i>*The students will be able to identify five different ways to say no to peer pressure.</i></p>	<p><i>*The students will be able to analyze the opportunities available at home, in school, and in the community to support the mental health of oneself or an individual.</i></p> <p><i>*The students will be able to analyze a variety of health products and services based on cost, availability, accessibility, benefits and accreditation.</i></p> <p><i>*The students will be able to properly administer an epi-pen.</i></p> <p><i>*The students will be able to explain how to perform the Heimlich Maneuver and demonstrate properly on a mannequin.</i></p> <p><i>*The students will be able to give first aid steps for eye and tooth injuries.</i></p> <p><i>*The students will be able to recognize and care for head, neck and spinal injuries.</i></p> <p><i>*The students will be able to recognize and care for extremity injuries.</i></p> <p><i>*The students will be able to recognize and care for burns and electrical injuries.</i></p> <p><i>*The students will be able to recognize and care for poisons.</i></p> <p><i>*The students will be able to recognize and care for alcohol and drug emergencies.</i></p> <p><i>*The students will be able to recognize carbon monoxide poisoning.</i></p> <p><i>*The students will be able to learn about fire prevention and</i></p>
--	---	--	---	---

	<p><i>*The students will be able to examine how the human body systems work together.</i></p> <p><i>*The students will be able to explain how humans grow, develop, and stay healthy.</i></p> <p><i>*The students will be able to discuss how our bodies let us do what we want and keep us alive.</i></p> <p><i>*The students will be able to assess how the health of one organ system impacts the health of the other organ systems.</i></p> <p><i>*The students will be able to explain how the systems and organs of the human body work together and individually to support life.</i></p> <p><i>*The students will be able to compare and contrast why each of the systems of the body are important.</i></p> <p><i>*The students will be able to hypothesize how our lifestyles impact our body systems and organs.</i></p> <p><i>*The students will be able to understand how cells are the basic unit of structure and function in the human body.</i></p> <p><i>*The students will be able to outline how we can make choices to promote a healthy body.</i></p> <p><i>*The students will be able to examine how what we put in our bodies affect the way it works.</i></p> <p><i>*The students will be able to identify ways to eliminate cyberbullying and a negative social media imprint.</i></p>	<p><i>alcohol, tobacco, and other drugs on the developing fetus.</i></p> <p><i>*The students will be able to explain how parental responsibilities change throughout the family life cycle.</i></p> <p><i>*The students will be able to evaluate the methods and resources available to confirm a pregnancy.</i></p> <p><i>*The students will be able to analyze factors that affect the decision to become a parent.</i></p> <p><i>*The students will be able to evaluate different reproductive disorders.</i></p> <p><i>*The students will be able to investigate the signs and symptoms that may occur in the body indicating a reproductive disorder.</i></p> <p><i>*The students will be able to compare and contrast male and female sterility.</i></p> <p><i>*The students will be able to create an action plan of how often individuals should give themselves a self-exam or go for screenings by a medical professional.</i></p> <p><i>*The students will be able to identify and discuss risk behaviors associated with sexting and a negative social media presence.</i></p>		<p><i>develop/establish a plan for their household.</i></p> <p><i>*The students will be able to evaluate the ways their families use fire and the safety of their homes from fire hazards.</i></p> <p><i>*The students will be able to discuss fire safety outside the house.</i></p> <p><i>*The students will be able to investigate product warning labels and fire safety.</i></p>
