

# 2022-23 State of the Schools Review Summary Report

August 22, 2023

---

# Background

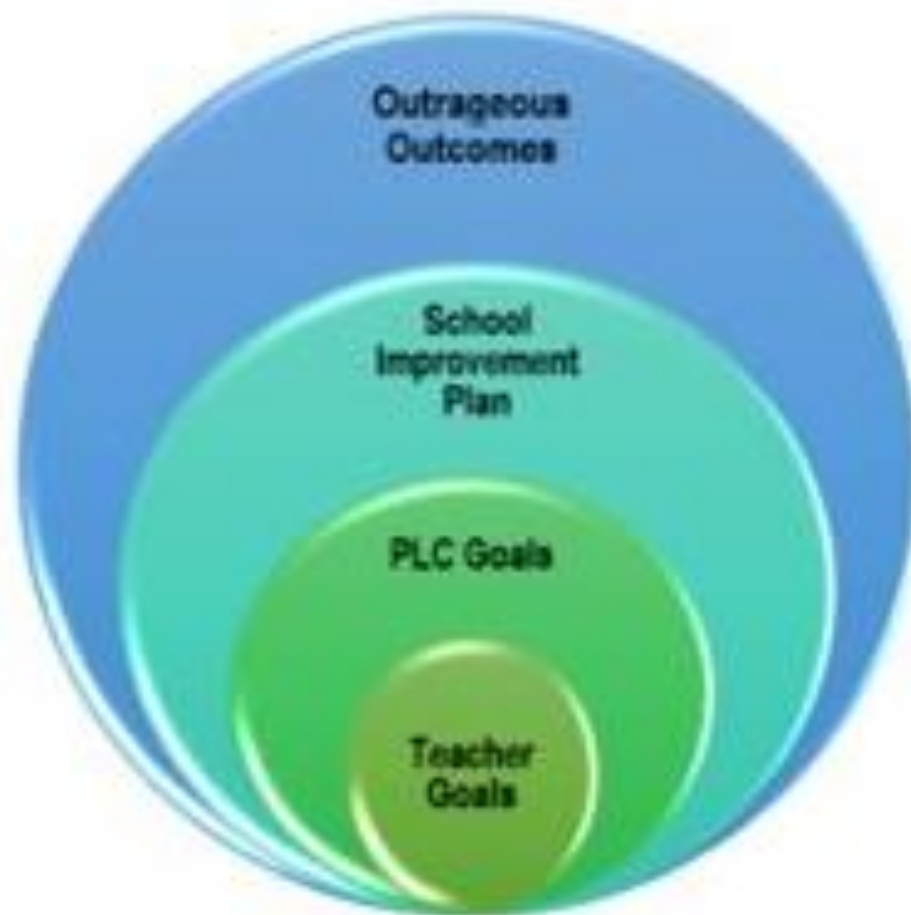

## A COHESIVE DISTRICT SYSTEM FOR MONITORING GROWTH TO 100%

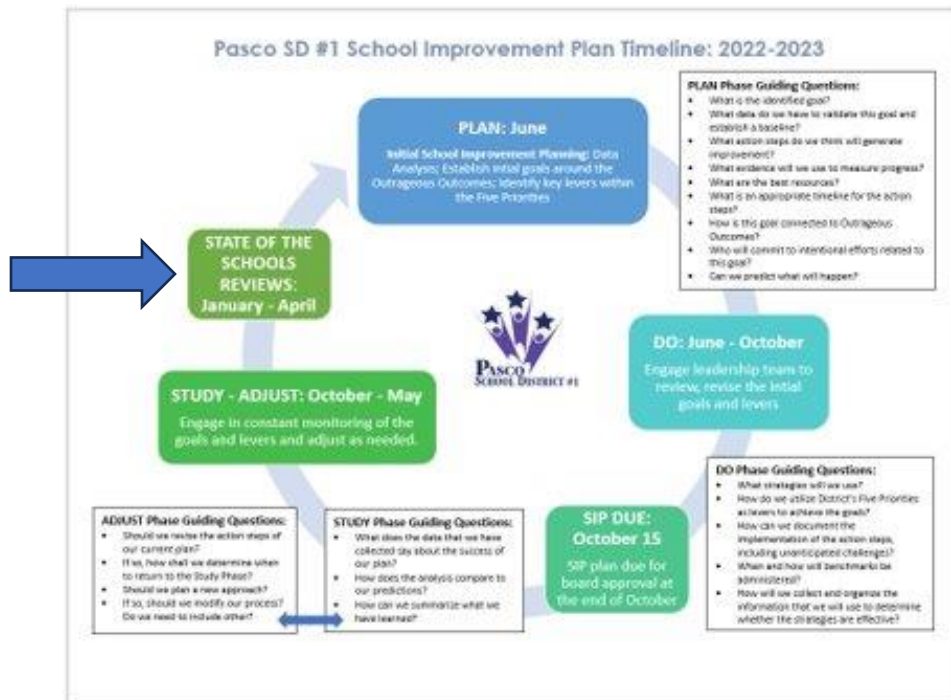

- Started spring 2020 – unable to complete due to COVID
- Paused 2021
- Resumed spring 2022 with 100% of school participation
- Completed 2023 cycle with 100% school participation

# Background

- To “connect the dots” from Outrageous Outcomes to School Improvement Plans, highlighting data alignment throughout the organization
- Progress monitoring of district's five priorities implementation, and how schools are using the priorities as levers for improvement
- Collect input from schools on how we can support

# Background

- Plan – Do – Study – Adjust
- Schools are engaged in research based best practices of cycle of improvement
- State of the Schools Review is a part of the School Improvement Planning cycle

# 2023 Common Themes

---

## Gratitude

- Clarity of focus and expectations around the five priorities – road map for implementation
- District level systems are becoming more aligned to support school level work
- Systems to operationalize the five (5) Outrageous Outcomes
- District staff visibility and availability

# 2023 Common Themes

---

"How can we help?"

- Facilities needs
- Continue and add student behavior and mental health support
- Impact of 'right sizing' staffing based on enrollment
- More professional development during the school day by utilizing substitutes

# Next Steps

---

- Revised School Improvement Plan to focus on targeted sub-groups of students
- Targeted support for schools
- Consistency on data reporting by schools
- School improvement data alignment with the Board Progress Monitoring
- Consistency in highlighting the action steps around the five priorities
