FY22 STEM/STEAM Grant- Equitable Services Announcement

Thomas County Schools is planning to apply for the GADOE FY22 STEM/STEAM Grant. A copy of the grant RFA can be obtained from the Title IV, Part A page on the Georgia Department of Education's website. [Link](#)

It is the responsibility of the local school district to communicate the availability of the grant to all geographically eligible non-public schools regardless of the public school district's participation in this grant. The non-public school's participation is not dependent on its participation in any other federally funded equitable service provisions. Non-public schools must apply through the public-school district where the grant funding will be awarded and administered. Awarded non-public schools will receive 100% of awarded grant funds.

Interested parties should contact [Dr. Bob Dechman](#) for more information.
