

C&I Updates

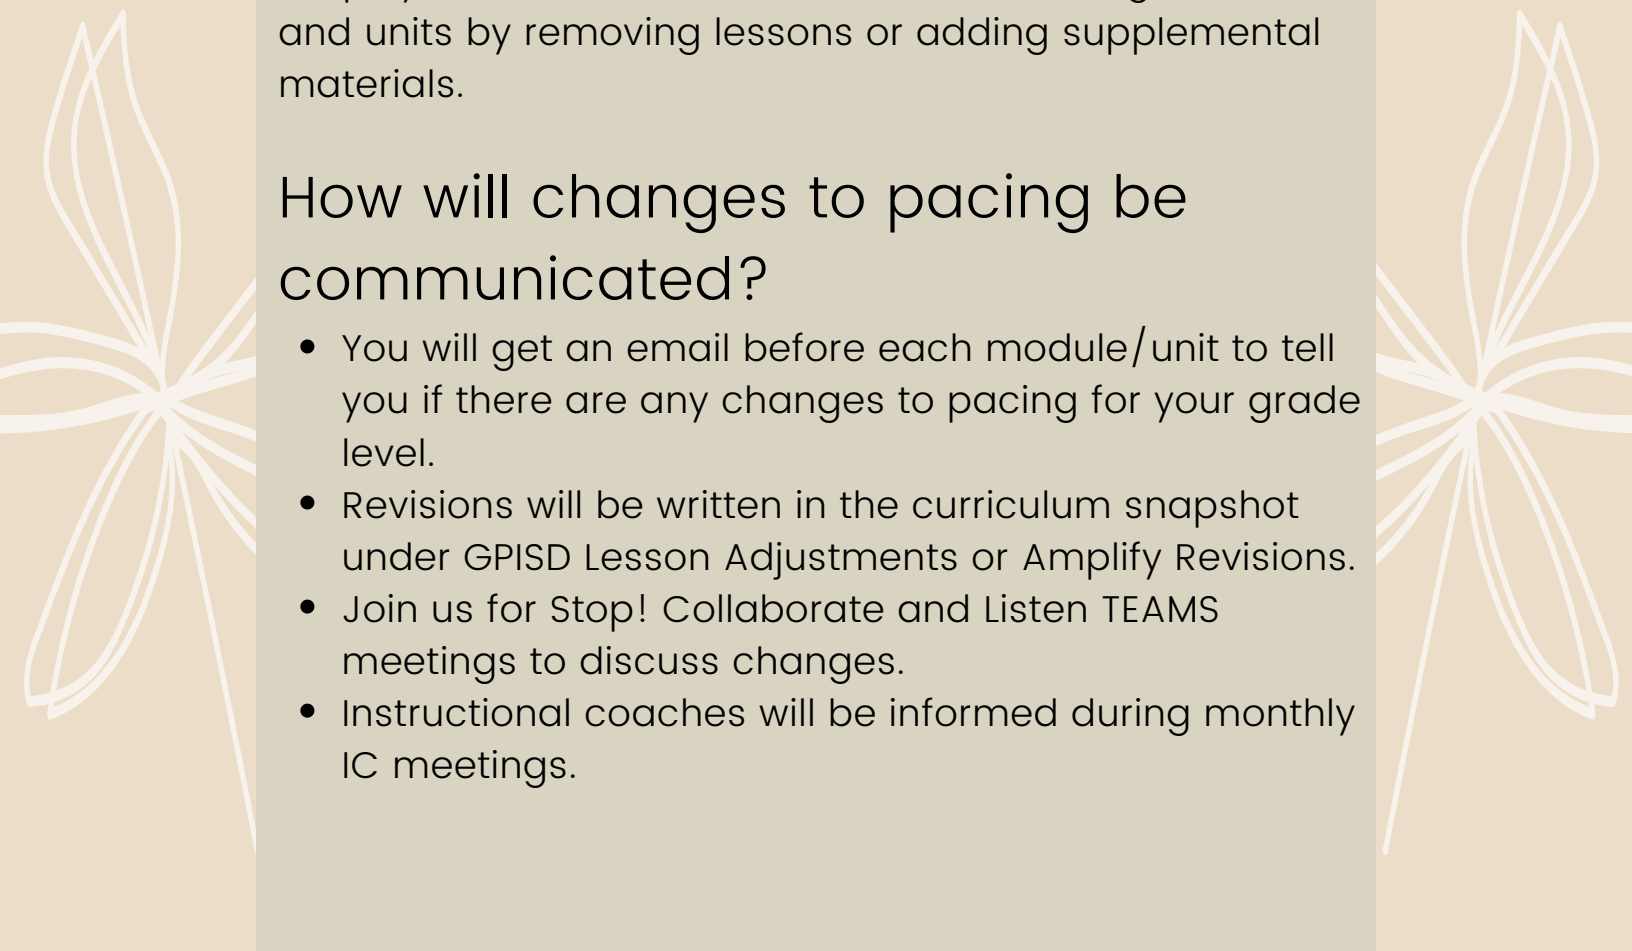

New to Eureka

Based on feedback from teachers in the field, Eureka Math has created supplemental lessons that enhance the original curriculum and give students additional opportunities to think deeply about math. These lessons can be found on the digital platform under your last module.

New to Amplify

Amplify has made minor revisions to certain grade levels and units by removing lessons or adding supplemental materials.

How will changes to pacing be communicated?

- You will get an email before each module/unit to tell you if there are any changes to pacing for your grade level.
 - Revisions will be written in the curriculum snapshot under GPISD Lesson Adjustments or Amplify Revisions.
 - Join us for Stop! Collaborate and Listen TEAMS meetings to discuss changes.
 - Instructional coaches will be informed during monthly IC meetings.
-
