

K-12 COLLEGE & CAREER READINESS and GEAR UP NEWSLETTER

Capping off the Year

Class of 2023, the College and Career Readiness/GEAR UP staff realizes this is a bittersweet time for each of you. We recognize graduation will look totally different than what you have anticipated for the past several months, but we want to let you know that **WE ARE PROUD OF YOU!** Graduating from high school is a tremendous achievement and we are honored that we had the opportunity to work with many of you and help you prepare for college and other postsecondary options.

As you take the leap from high school to college or your career, we encourage you to do the following:

- Hold on to your high school friendships, but not too tight
- Be open to making new friends as you go off to college or enter a new career field
- Don't be afraid to talk to your professors or new colleagues
- Embrace the uncertainty that comes with transition
- Lean on your family and share with them your new experiences, successes and challenges
- Mentor an elementary, middle or high school student
- Be a lifelong learner
- **ALWAYS BELIEVE IN YOURSELF!**

EXTERNAL INTERNSHIP SPOTLIGHT - MAJDA NOKOUR 25'

Majda Nokour is a sophomore at North Side High School, she plans to major in the medical field with a concentration in anesthesiology. Majda has been interning at the Neighborhood Health Clinic and has had the opportunity to learn in many different areas of the medical field. During her internship with Neighborhood Health, she has learned the importance of having the medical room ready for the next patient and the different processes of a dental check up. Majda would like to encourage students to only commit to an internship if they are truly interested in the field. Her experience has taught her that being in a work environment can be difficult, but with determination you can and will be successful.

Community Programs

<https://fortwayneschools.org/studyconnection>

The month May is one of the busiest months for volunteer background checks as many of the schools in the district are going on field trips and need background checks for volunteer chaperones. As such, here are some reminders to share with others in your area.

- All volunteers must have a current (within the last three years) volunteer background check with the district. If a volunteer is an FWCS employee, they do not need to do a volunteer background check.
- If a chaperone will be responsible for students without an FWCS employee present, the chaperone will need a comprehensive volunteer background check, even if they recently completed a limited background check.
- Background checks take 5-15 business days to complete (that is 1-3 weeks!). Therefore, it is necessary to have your volunteers complete their background check as soon as possible.
- Potential volunteers should call the Community Programs main line at 260-467-8810. Any one of the Community Programs staff members can help callers.

We do have the ability to work with individuals who may need an interpreter. Callers can either call the Multilingual Info Line at (260) 467-2009 and ask to speak with Community Programs, or call Community Programs and we will conference call the Multilingual Info Line. As always, if you have any questions, please call Community Programs at (260) 467-8810.

EXPLORE

POSSIBILITIES IN ARCHITECTURE, LANDSCAPE ARCHITECTURE AND URBAN PLANNING

"One difference between Ball State's architecture summer program and others is the quality and approach to each project as a design solution rather than a drafting solution. My newfound vision of design thinking allowed me to dive into the first year of projects at Ball State with a preprogrammed mind toward how to think about environmental design."

—Taylor Metcalf, Kokomo High School, Kokomo, Indiana

DesignWorks Summer Academy

DesignWorks Summer Academy is an immersive, intensive, team-driven, college-level experience that gives you an insider's view of the design and planning professions that shape our buildings, sites, and cities. The "let's try it" environment of DesignWorks is modeled on the Common First-Year Program in our nationally recognized College of Architecture and Planning and includes field trips, collaborative projects, access to design professionals, campus living, hands-on work, and a bit of fun too.

Benefits:

- **Earn 3 hours of college credit in CAP 198 course if you enroll at Ball State.**
- Develop graphic materials for college admission portfolios.
- Gain knowledge of the design thinking process used in the professions of architecture, landscape architecture, and urban planning.
- Experience what campus life and college courses are like.
