Field Trip Permission Form

Dear Parent/Guardian:

During the course of the school year, many Agriscience classes are conducted outside the classroom and away from school property. The frequency, length and location of the field trip will vary depending on the instructor and the particular Agriscience unit of instruction. Most of the Agriscience field trips will be conducted only during Agriscience class time or after school and will be to farms or other agricultural businesses and other points of interest located a short distance from the Suffield Regional Agriscience Center.

This permission form grants your approval for all Agriscience, FFA, and Supervised Agricultural Experience (SAE) field trips that occur during class time and/or after school during the year. Every student must have parental approval to attend a field trip. Field Trips are considered an integral and essential part of an Agriscience class. Since the Suffield Regional Agriscience Center maintains and operates its own bus, most field trips will have no cost for the student. Please note, some field trips will require an additional permission slip.

If you have any question, please contact the Agriscience office.

Please complete the section below and return this form to the Suffield Regional Agriscience Center.

In conjunction with Agriscience classes, FFA and Supervised Agricultural Experience (SAE) activities, I give
_____ **permission to attend field trips.**

(Print student's full name)

I understand that this is approval for all class time and /or after school Agriscience, FFA, Supervised Agricultural Experience (SAE) field trips to be taken for the duration my student is enrolled as an Agriscience student at Suffield High School.
