

Hello! Welcome to room 222, and 4th grade. I'm so excited that I get to be your teacher this year, and I can't wait to soon welcome you to 4th grade! I've taught at Northwood since we opened its doors in 2016, so I may know a lot of you already. My name is Mrs. Oliveira, but you can call me Mrs. O.

Since I'm a HUGE fan of math, I'll provide you with 6 facts to find out more about me. You may wonder why I chose 6 facts, and not 10. 6 is because if I add the digits up that create our room number, it totals 6 ($2 + 2 + 2 = 6$).

<p>I am a HUGE University of Washington Huskies sports fan! My family and I are season ticket holders for Husky football and softball, and also go to Husky gymnastics meets often.</p> 	<p>I live in Seattle, but spend a lot of time in Mercer Island. I love being able to see the tall city buildings from my bedroom, and being close to Lake Washington.</p>
<p>I enjoy doing Stand up Paddle boarding and taking my board to different places for paddling.</p>	<p>I love to travel! This past year, we've done Palm Springs (CA), Mexico, Boise (ID), camping at Lake Kachess., and more.</p>
<p>I LOVED having pen pals to write to as a kid. Many of those pen pals are still my friends today, but live all over the US and one in Germany. This year, you will have 1-2 pen pals to write to as part of class writing. Get ready for fun and new friends!</p> 	<p>I love to run and race! Last year, my 4th grade class and I ran on the Mercer Island High School track at least 7 times together. Our class will have fun doing mile run/walk days, and I can't wait to see you improve your times over the year.</p>

See you soon, 4th grader! If you have further questions, or want to tell me your own funny joke or about your summer adventures, send me an email at:
