Annual Notification of Planned Pesticide Use

Healthy School Act AB 2260 requires notification be given to parent/guardians and staff regarding the use of pesticides in public schools. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Internet address (http://www.cdpr.ca.gov) for further information on pesticides and their alternatives. Parents/guardians and staff will be notified at least 72 hours before pesticides are applied.

AB 2260 encourages an integrated pest management (IPM) approach be taken. In the Bellevue Union School District (BUSD) IPM means using the least harmful chemicals, when chemicals are used. Establishing a threshold before chemicals are used, incorporating mechanical weed control, non-chemical rodent abatement, etc.

For further information on IPM please visit the Department of Pesticide Regulation's website: www.cdpr.ca.gov. For more information on District Policy please contact the BUSD district office at 707-542-5197.

The following pesticides are at times stocked for use by authorized and trained employees or vendors and may be used at the school sites:

NAME OF PESTICIDE	ACTIVE INGREDIENT(S)
Vinegar/Salt Mix	50% Acidic Vinegar / Epsom Salt / Dawn Dish Soap
Roundup Pro Max	Glyphosate, N-(phosphonomethyl)glycine in form of salt
Max Force Granular Insect Bait	Hydramethylnon [Tetrahydro 5-5dimethyl-2(1h)-pyrimdinone, (3-(4-(trifluromethyl)phenyl)-1-(2-(4-(trifluoromethyl) phenyl)ethenyl)-2-propenylidene)hydrazone
Ortho Weed B Gon MAX	2.13% Quinclorac, 6.42% 2,4-D, 0.60% Dicamba
Kleen Up Weed & Grass	Glyphosate, N-(phosphonomethyl)glycine in form of salt
BurnOut	Citric Acid, Clove Oil
Answer Gopher Bait	2-(Diphenylacety) 1, 3-indandione Diphacinone, $C_{23}H_{16}O_3$
Tomcat Mole & Gopher Repellant	Zinc Phosphide
Ranger PRO® Herbicide	Isoprpylamine salt of glyphosate
DIMENSION™Ultra 40WP Specialty Herbicide	Dithiopyr, Kaolin, Titanium dioxide, Silica, crystalline (quartz), Toluene
SPEED ZONE®Southern Broadleaf Herbicide for Turf	2, 4-D, 2-ethylhexyl ester, R(+)2(2 Methyl-4-chlorophenoxy)propionic acid (MCPP), 3,6-Dichloro-oanisic

	(Dicamba), carfentrazone-ethyl (ISO) ethyl (RS)-2-chloro-3-[2-chloro-4-fluoro-5-[4-difluoromethyl-4,5-dihydro-3-methyl-5-oxo-1H-1,2,4-triazol-1-yl[phenyl] proprionate
SUSPEND® SC INSECTICIDE	Deltamethrin, 1,2-Propanediol, Nonlyphenol ethoxylate, branched

The following is a list of approved pesticides which may be used in your facility. Any deviation from this list by the PCO must be pre-approved by the plant manager and/or QC manager. The approved list must be modified and SDS provided before the material is applied. ***For Emergency Treatments Only.**

Brand Name	Active Ingredient	EPA Reg #	Signal Word	Area/building to be used
Advion Roach Gel	Indoxacarb	100-1484	Caution	Interior/exterior
Advion Ant Gel	Indoxacarb	100-1498	Caution	Interior/exterior
Detex non-toxic blox	none	none	none	Interior/Exterior
Ditrac All-Weather Blox	Diphacinone	12455-80	Caution	Interior/Exterior
Essentria all purpose	Rosemary/Peppermint oil	Nine	Caution	Interior/Exterior
Essentria IC 3	Rosemary/Peppermint oil	None	Caution	Interior/Exterior
Evergreen	Pyrethrins	1021-2560	Caution	Interior/Exterior
Maxforce ant station	Fipronil	432-1256	Caution	Interior/Exterior
Maxforce Roach station	Hydramethylnon	432-1257	Caution	Interior/Exterior
Motherearth Granullar	Boric Acid	499-515	Caution	Interior/exterior
Nyguard	2-Methyl Pyridine	1021-1603	Caution	Interior/Exterior
Pheromones IMM	NA	NA	NA	Interior/Exterior
Pheromones CFB/RFB	NA	NA	NA	Interior/Exterior
Selontra	Cholecalciferol	7969-382	Caution	Interior/Exterior
*Suspend Polyzone	Deltamethryn	432-1514	Caution	Interior/Exterior
*Suspend SC	Deltamethrin	432-763	Caution	Interior/Exterior
Terad 3 Ag Blox	Cholecalcifero	12455-116	Caution	Exterior
*Termidor SC	Fipronil	7969-210	Caution	Exterior

E.P.A. Registered chemicals are applied by companies/employee who possess a valid “Qualified Applicator Certificate” issued by the state of California or have completed the California E.P.A Pesticide Safety Course N Training.

Notificación Anual de Uso Planeado de Pesticida

El Acto Escolar de Salud AB 2260 requiere que se dé notificación al padre/tutores y al personal sobre el uso de pesticidas en las escuelas públicas. La notificación identificará el ingrediente o ingredientes activos en cada producto pesticida e incluirá la dirección de Internet (http://www.cdpr.ca.gov) para obtener más información sobre pesticidas y sus alternativas. Los padres/tutores y el personal serán notificados al menos 72 horas antes de que se apliquen los pesticidas.

AB 2260 anima que se tome un enfoque de la administración de peste integrado el cual se conoce por las siglas IPM. En el Distrito Escolar Bellevue Union (BUSD) IPM quiere decir usando el mínimo de químicas dañosas, cuando se usan las químicas. Establecer un límite antes de que se usan las químicas, incorporando control mecánico de las malas hierbas, reducción de roedores sin químicos, etc.

Para más información sobre IPM favor visite el sitio de la red del Departamento de Regulaciones de Pesticidas: www.cdpr.ca.gov.

Para más información de la Política del Distrito favor pónganse en contacto con la oficina del Distrito BUSD a 707-542-5197.

Los siguientes pesticidas se mantienen en reserva para el uso por empleados autorizados y con formación y se pueden usar en las escuelas:

NAME OF PESTICIDE	ACTIVE INGREDIENT(S)
