The percentage exemption that applies to the assessed value of a qualifying property depends on both the nature of the veteran's service and the local law adopted by the taxing jurisdiction. Veterans who sustained service-related disabilities, as evidenced by receipt of disability compensation rating from the Veterans Administration or the Department of Defense are eligible for a percentage exemption equal to one-half of their disability in addition to the wartime and combat zone exemptions. Veterans who died in service of a service-connected disability are considered to have a disability rating of 100%.

The District has authorized the basic maximum income limit listed in the below chart:
