DATE: May 23, 2023

RE: Asbestos Abatement

This letter is to notify you that an asbestos abatement project is scheduled to take place on June 5, 2023, and will involve the removal of asbestos containing building materials (ACBM) in the bathrooms at Spring Wood Middle School. The project is expected to last through July 12, 2023. The location of the specific work areas is on file at the District Office.

The project is designed to meet all applicable regulations and Keeneyville School District #20 requirements. The project will be completed by an Illinois Department of Public Health (IDPH) licensed asbestos contractor with workers trained and accredited to perform asbestos abatement in Illinois public schools. Additionally, the project will be monitored by an on-site environmental consultant.

During abatement activities the areas in the building where work is occurring will be isolated and restricted to licensed personnel. Signage will be posted at the entrances to the restricted work areas. This work is occurring after the regular school year and before summer school, therefore no work is being performed during school hours.

If you have any questions regarding this project, please contact Reiley Straub, Director of Finance and Operations, 847-254-0607.
