

## Groups in Schoology

Have you checked out the "**Groups**" tab on Schoology?

If you haven't, you should. About twenty different public groups offer great ideas and support.

We highly recommend joining the "**Schoology Educators**" group for support as you use Schoology. You can post questions and have a community of educators respond. Super helpful!

Here's how to get to the community of educators who offer Q&A and great ideas:

- ✓ go to the "Groups" tab and then
- ✓ go to "My Groups" then
- ✓ go to "public groups" and
- ✓ select "Schoology Educators".

You can join and create private and public groups as well. You are definitely not alone when it comes to Schoology.

You can also create groups for students to join. For example, create a group for over the summer to keep discussions current with classes.
