Recording of meeting commenced at 4:58pm

Meeting Attendees:

Ama Dei, Clara Hoellerbauer, David Khaliqi, Julie Ott, Lyman Kaiser, Marion Clawson, Natasha Crouse, Parth Melpakam, Velvet Stepanek

Agenda discussion:

I. **Loop Closure**

Hoonuit data access is unavailable at this time. We are in discussions with PowerSchool on a solution and are hoping we will have some data available by mid-February. We are looking into changing vendors for district-wide (not state required CMAS) benchmark assessments to potentially replace the current assessment platform (Galileo). School staff are working with students regarding disruptive behavior and reacclimating to in person learning after break and the COVID impact and constant changes. This also includes loss of learning issues. We will need more than 12 months to correct issues that have been going on for over 18 months.

II. **Winter Benchmark Testing**

DL scores give an overall (high level) picture of how a particular school is doing. For individual students, how they perform on specific items and where it is really most impactful for students is in the day to day classroom assessments. That formative assessment is informing instruction. Teachers can dig into the assessment and see how students perform on different items. This can provide teachers with a sense of where their students are. Teachers will review assessment outcomes to determine what an individual child truly needs. This gets into the complexities of teaching, and knowing your students on a deeper level.

Principals and other school administrators have access to Galileo testing data and Performance Matters data for their specific schools for their review.

Meeting adjourned at 6:48pm
