

Logging in to Destiny will allow you to:

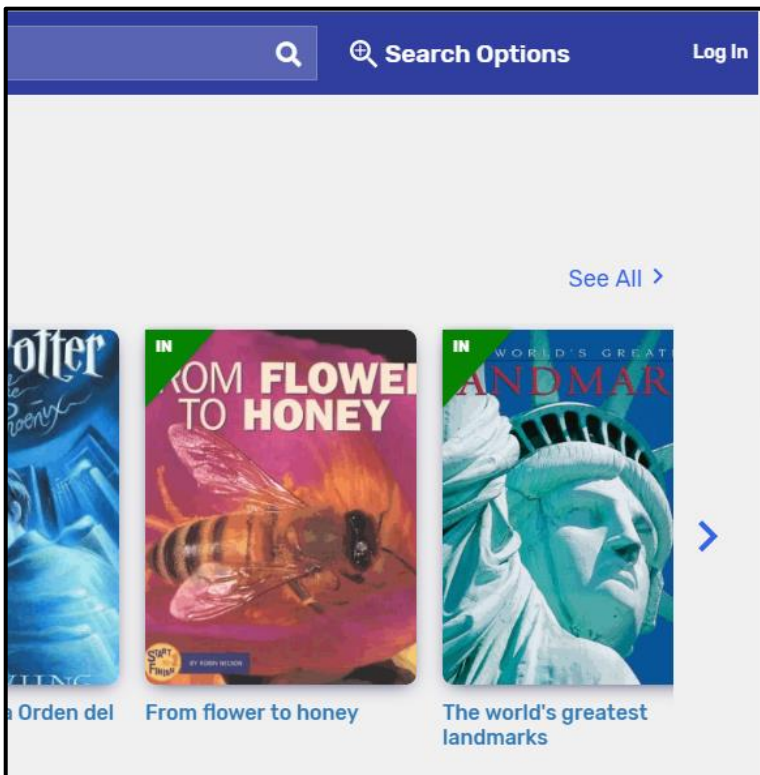

- Find/reserve/read/checkout eBooks and eAudio Books
- Find online research tools and databases

Find the link to the Destiny Catalog from your school website. If you cannot find it on your school website, go to library.d11.org, and you will see the view below. Open the drop down levels.

Be sure to choose your own school to access eBooks, eAudio and other features.

Destiny Discover will open. Be sure you see your own school name on the left. Log in using your D11 network username and password at the top right.

Use the hamburger lines on the top left of the screen after you have logged in to open up the options menu. From here, you can find what print materials you currently have, and open up any digital materials you have checked out.
