We had some discussion about the different surveys the district is using to help see how the district is doing. There is the 5 Essentials survey, which teachers and students took this year, Orgametrics Survey, and TLCC survey.

The 6th grade was still using the team model this year but 7th and 8th grade had stepped away from it this year. It has been decided that 7th and 8th grade are going back to the team model.

Sabin is trying to move to interdisciplinary learning across the school. Sabin is also using Project Based Learning.

6. Budget Equity Exercise

Discussed Sabin's Core Values. Mr. Welch provided the attached list. The group discussed what values are important to us. Some that came up were gratitude, collaboration, community, integrity, ownership, service, and respect. This discussion will continue on.

7. Title IV Funds – Athletic Fees

Needed to discuss whether or not it is valuable for the district to pay athletic fees and transportation fees for sports in middle school. These fees are being paid with Title IV funds. This has been done the last two years. We agreed that it is valuable if it is allowing students access to sports that they would

not have without fees.
