August 28, 2023

Dear Families and Friends of Westport Community Schools,

As we begin the start of the 2024 school year, I hope that this past summer was filled with family, friends, food, and fun. But as everything must end, I wanted to briefly update you on our education and facility improvements to improve your child's (children's) educational experience here at Westport.

During the 2024 school year, we will offer neo-technical education to our Middle/High School students to expand their career and college opportunities upon graduation. Curriculum Director Kaminski is working with all building leaders and instructional staff to increase our students' literacy skills with the goal of improving our students' success throughout their journey at our schools. We are also excited to announce that we will be hosting athletic competitions on our new fields for the first time since opening our new school at Old Country Road

When entering the school grounds and buildings, you will see how clean the learning environments are and the improvements we made to our three school buildings. The kitchen at our Westport Elementary School has new equipment, and the floors and ceilings have been replaced. The parking lot has also been redone, making the environment safer for students and staff. Our technology department has been hard at work ensuring our students have access to the technology they need now and in the future.

As a reminder, the start of the school year for students is August 29, 2023, for grades 1 through 12. Pre-K and Kindergarten will begin school on September 6, 2023. Our pre-school program starts on September 7, 2023.

We look forward to a terrific school year filled with rigorous academic offerings and enrichment opportunities for our students.

Regards,

Thomas F. Aubin
Superintendent of Schools
