First Student Hired through Baldy View ROP Partnership with UPS!

Baldy View ROP shares a valuable partnership with UPS that provides us with valuable information regarding the local economic profile within the logistics and warehousing industry. In addition, UPS operations serves as a model as we develop our curriculum for our exciting and upcoming Warehouse Operations and Logistics Pathway.

UPS Global Customer Solutions Area Manager, Aldo Fierro, has been instrumental to BVROP's partnership with UPS and has been an excellent resource as we design our curriculum. The Warehouse Operations and Logistics Pathway is coming to Claremont High School and the BVROP Career Training Center Fall 2019.

Due to our partnership with UPS, the first Baldy View ROP student, Antonio DaeHan Rivera, has been hired to work for the company as a package

handler at the UPS location in Ontario!

"It was surreal being hired and I'm so grateful to have such a strong resource behind me through being an ROP student," Antonio shared.

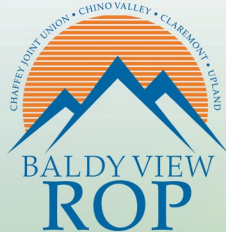

Antonio graduated from Alta Loma High School in Chaffey Joint Union High School District last year and took the BVROP courses Sports Medicine and Game Design & Development. While his ROP courses did not directly relate to his position with UPS, Antonio regards them as having provided him with the foundation to know what is expected of an employee by any company or organization.

"ROP taught me how to work in sync with other people and understand employers' needs. ROP also helped me to get my job with UPS, who I like working for and appreciate the benefits they provide," he said.

Antonio shares his thanks for all those who helped him to be hired at UPS.

"I want to thank Aldo Fierro, Shawneece Coyle, and everyone at Baldy View ROP for their help and support!" he shared.

Special thanks to UPS for their continued support and to Special Projects & Grants Liaison and Program Specialist - Curriculum Development Shawneece Coyle for her help with this story!

BVROP Alum Featured as Guest Speaker at IHPC Meeting

Isabella Orozco speaks during the IHPC meeting

Baldy View ROP Alum Isabella Orozco was a guest speaker at Baldy View ROP Partner Inland Health Professions Coalition (IHPC)'s Quarterly Nexus meeting at Azusa Pacific University on December 4th. Isabella is a junior at Chino Hills High School in Chino Valley Unified School District who took the BVROP Pharmacy Clerk course with Instructor Mike Garcia at the BVROP Career Training Center. She dreams of pursuing a career in the healthcare field. She expressed that ROP and her participation with IHPC has provided her with insight about the various career choices available within the healthcare industry. Isabella also completed a summer internship with Kaiser Permanente Regional Reference Laboratory in Chino Hills where she was able to job shadow a clinical laboratory scientist (CLS).

"Those were the best 6 weeks I could have ever spent. I saw state of the art equipment and was able to see a CLS cut human tissue because they were looking for cancer," she shared.

Isabella has remained inspired from all of her early experiences with healthcare and recently visited Pomona Valley Hospital Medical Center where she spoke with a licensed pediatrician about mental health. Isabella also attended Pharm Day at Western University. Great work, Isabella, and thank you for being such a great example and representation of Baldy View ROP at the IHPC Nexus meeting! Special thanks to Special Projects & Grants Liaison Christine Pendergraph and IHPC Outreach Specialist Benito Machado for their help with this story.

SPOTLIGHT ON THE STUDENTS

Stage Technology

Students in the Baldy View ROP Stage Technology course at Claremont High School (CHS) in Claremont Unified School District built the set for their high school's production of the play, "110 Stories." The play centers around survivors of the September 11th attacks, providing students with the technical challenge of creating a stage set to reflect the events surrounding Ground Zero. The play's story also provides the students with the opportunity to stretch their historical appreciation for an event many of them do not remember occurring in their lifetimes.

Instructor Tom Evans shared, "110 Stories' is an important challenge for a high school theatre program. Students working on this production were either toddlers or not yet born when the Twin Towers fell. Working on the production lets every student reflect and remember an event that changed and shaped their world."

The technical nature of the course is at times more reflective of a construction course than what most would typically associate with a theatre course. However, constructing stage sets along with controlling various factors such as lighting and sound effects are just as essential to any play as those who act within it. Students taking the BVROP course learn all aspects of producing plays from behind and around the stage. They also work actively with students in the CHS Drama course which focuses on the acting component of the productions.

CHS ninth grader Maya Long worked on building the towers for the production modeled after the World Trade Center and shared that she enjoys the opportunity to watch actors utilize the set she helped build.

"It's really cool seeing how sets are put together and being a part of that. It's a great experience to see actors using the stage you worked on during the show," she shared.

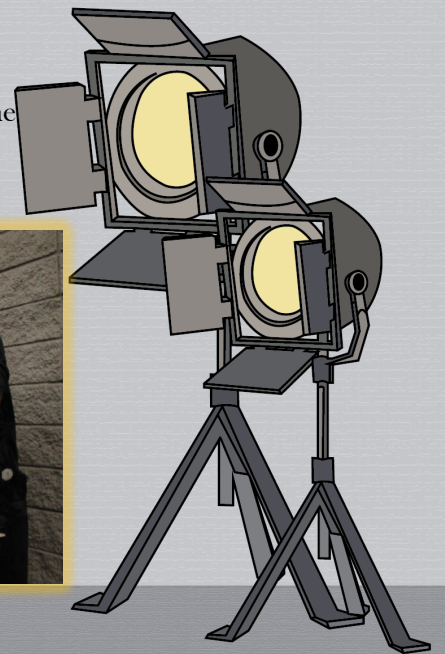

After high school, Maya would like to continue working in the entertainment industry as a director and noted her gratitude for being able to diversify her skillset for her future career.

"If I'm a director but set work needs done I can also help with building. Plus after taking this course I think I can totally build a treehouse!" she joked.

CHS ninth grader Robert Davis worked with Maya and enjoyed the course as well.

"I want to be a graphic designer for a living and this course really teaches us about time management and attention to detail," he said.

110 Stories will be playing December 8th-16th at the CHS Auditorium.

CHS junior Tyler Bush and sophomore Natalya Quick work on building a tower as part of the stage display in "110 Stories"

CHS ninth graders Maya Long and Robert Davis measure wood to cut for a stage set piece

New Baldy View ROP Course

CONSTRUCTION & BUILDING TECHNOLOGY

Instructor Rick Sander is concluding the first semester of the new Baldy View ROP course, Construction & Building Technology, at Don Lugo High School (DLHS) in Chino Valley Unified School District. The course introduces students to various manual and power-operated tools used in the construction industry. Students consistently practice using the necessary safety equipment and proper handling techniques for all of the tools they use in order to safely work in class.

Students work together in teams throughout the course as they build various structures. One of their projects was building sheep feeders for use on their high school's sheep farm. The project involved more than just construction as students also had to engage in cost analysis. Students tracked prices and quantities of the materials they purchased for the project.

DLHS ninth grader Brandon Alba enjoyed the math aspects of the project as it relates to his future goal of entering a sales and marketing career.

"We needed to figure out the cost of the feeder. We were able to determine the cost by looking at how much we spent on materials. This is going to help me in my future in sales because in order to sell something you need to know a product's value," he said.

DLHS junior Jose Meza is interested in working either as a welder or a carpenter and is a group leader in his class. His favorite project so far has also been constructing the sheep feeders.

"Getting angles cut and measured properly is the hardest and most important part because if you get it wrong you have to start all over," he explained. "It's great when it works and you've built something you can use. Mr. Sander is a very talented instructor and I'd recommend this class to anyone. Even if you don't go into construction, you'll learn how to work on your own home one day."

Instructor Rick Sander helps students operate power tools and build a small frame for a class project

SPOTLIGHT ON THE STUDENTS

The Baldy View ROP Game Design & Development course at Hillside High School (HHS) in Upland Unified School District teaches students how to develop computer games from drawing paper to their computer screens. Instructor Gerald Jo introduces students to the task of drawing characters on paper, including multiple profiles, and then walks them through the steps of bringing their creations to life using the animation software 3DS MAX. Students will later create game environments for their characters and import them into game engines in the creation of playable computer games.

“Being able to work with this software gets them more comfortable with technology and gives them confidence as they can tackle something complicated. They will be able to implement what they learned in this class,” Instructor Jo shared. “Students may encounter a different type of software down the road like something from the Adobe suite, but they’ll be able to look at it and say, ‘No problem, I can learn this.’”

HHS junior Sama Khan has always had an interest in video games and is now learning first hand what it takes to make one herself.

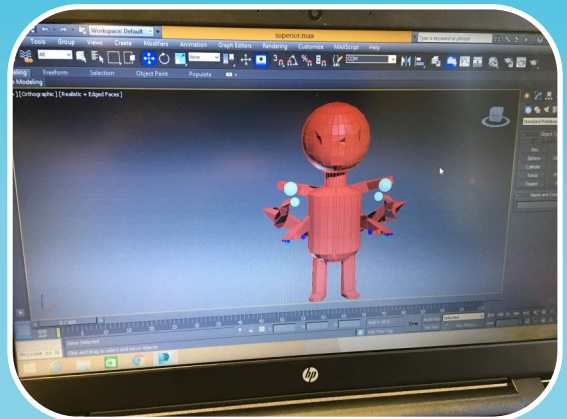

“This class is fun and lets you be creative. At the same time, there are a lot of details involved and you have to be really meticulous about the tools you use and what you use them for when you design your characters,” she said.

HHS senior D’ovie Williams enjoys working with the software 3DS MAX and explained his appreciation.

“This class really makes you appreciate how hard video game designers work,” he said. “It’s an honor to be able to work with this software and to use the same tools that professionals in the industry use.”

HHS junior Sama Khan develops her game character based on her paper drawing

STUDENT FIELD TRIP

Instructor Mike Garcia and BVROP Healthcare Occupations students outside Casa Colina Surgery Center in Pomona

Instructor Michael Garcia's students taking the Baldy View ROP Healthcare Occupations course at the Career Training Center visited Casa Colina Hospital in Pomona. The tour was led by Casa Colina Director of Rehabilitation Andrea Morris, RN, BSN, MSN. Students toured the entire hospital campus to see the continuum of care provided to various types of patients. Students saw the ICU, surgical suites, acute rehabilitation center, and the post-rehabilitation facility. The tour supported students' understanding and exposure to careers within the healthcare field and served as an example of what professionals in the industry work

with everyday of their careers. Thank you to Casa Colina for hosting our students and thank you to Instructor Mike Garcia for sharing this story!

Della Robbia *Wreaths* From Boys Republic

Boys Republic student at work on a Della Robbia wreath

Della Robbia wreaths are uniquely hand-crafted decorations of fresh noble fir boughs, fragrant apples and lemons, a cornucopia of pine cones, decorative seed pods and other natural materials. When you buy a Della Robbia wreath from Boys Republic, you also give troubled youth a second chance to work towards overcoming childhood trauma and adversity. Producing the wreaths teaches Boys Republic students the value of honest work through their motto "Nothing Without Labor", and reinforces positive life values. Boys Republic is a representation of growth, recovery, opportunity, and hope that has guided more than 30,000 at-risk boys and girls to productive and fulfilling lives.

To order a Della Robbia wreath and support Boys Republic, call 909 591-9122 or visit www.boysrepublic.org

Jay Leno is this year's Della Robbia Celebrity Chairperson, representing the program in various literature and materials related to the project

CTE Incentive Grant Flash

Baldy View ROP courses have been promoted to the community recently through some familiar as well as new and innovative approaches thanks to funding provided through the CTE Incentive Grant (CTEIG). The advertising opportunities were selected by district representatives

throughout the consortium which includes Chaffey Joint Union High School District, Chino Valley, Claremont, and Upland Unified School Districts.

Advertisements and promotional purchases have included ads in local and high school newspapers, mailers, ads through Pandora streaming radio, custom-printed retractable banners that include the logos for the various districts in the consortium, and targeted digital marketing campaigns. Courses have also been advertised through paid social media posts across the major channels including Facebook, Twitter, Instagram, and YouTube. The advertising plan even includes several commercials, the first of which was filmed at the Career Training Center and features footage from ROP medical courses. The commercial aired on local cable TV stations throughout the consortium's regional cities and also aired on YouTube. The commercial included the appropriate district logo depending on which cities the commercial aired in or streamed over online. Preparations are underway to film additional commercials highlighting ROP courses including Computer Programming and Informatics as well as the upcoming Warehouse Operations and Logistics Pathway.

Check out examples of the various advertisement and promotional items below! Clockwise from top left: Banner displayed when corresponding audio advertisement plays through the Pandora streaming radio application; advertisement placed in the Claremont Courier newspaper; social media ad posted on Facebook, Twitter, and Instagram; retractable banner; advertisement placed in the Ontario Jagwire high school newspaper; medical course commercial that aired in the local region as well as on YouTube.

Growing Our LVN Students

Baldy View ROP's Licensed Vocational Nursing Program is known for offering exceptional theory instruction and clinical training that produces historically high NCLEX pass rates for licensure. So how is this possible year after year? By the devotion and innovation of the BVROP staff, Dr. Sally Mahmoud, and the LVN instructors! Within the last two months students and staff have participated in three amazing projects.

First, BVROP LVN students volunteered their services during a free Medical and Dental Clinic organized by the Loma Linda Chinese SDA Church and the San Bernardino Community SDA Church. The clinic was held on November 10th and 12th in San Bernardino and welcomed residents to receive free medical, dental, and optical care. BVROP LVN students assisted with blood pressure screening, nutrition and lifestyle consultations, and offered diabetes screening and education. Marcelo Sekewael, a current BVROP LVN student, said not only was he excited by the opportunity to showcase skills and knowledge he's acquired through the LVN program, but was grateful for the opportunity to work with various patients and understand the importance of serving the community while adapting to constant change in a fast-paced environment.

Second, Dr. Mahmoud and LVN instructors, Katie Sixsmith and Pat Dodd, hosted members of surrounding clinics and fellow LVN programs during an Advisory Committee held at the BVROP Career Training Center. During the meeting, Dr. Mahmoud discussed emerging teaching techniques, employer expectations, and program productivity. Since joining the program in April as the LVN Program Director, Dr. Mahmoud has dedicated herself to ensuring students have what they need to not only succeed in the classroom, but in the field as practicing LVNs. Attendees were welcomed to tour the newly enhanced Skills Lab and offered an inside look as to how students prepare and train for their clinical sites.

Finally, Dr. Mahmoud has introduced the first LVN Peer Mentoring Program that pairs student mentors

with student colleagues looking for additional instruction. Students learn best practice study habits, methods for learning retention, and teaching skills they will use when explaining procedures and diagnoses to patients. Students meet twice a week to concentrate on areas of focus and support each other in their learning endeavors.

With graduation just around the corner, Dr. Mahmoud and her instructors are diligently working to offer students all they can to help guarantee a successful program completion and NCLEX exam! TABE testing for the next cohort of LVN students is taking place now! Visit www.baldyviewrop.com for dates.

Students partner up and practice skills during class

Students work together through the LVN Peer Mentoring Program by offering peer-to-peer support

Staff News and Notes

Career Technician Profile: Krystle Arzola, Ontario High School

Krystle Arzola continues her service in education as a first year Career Guidance Technician at Ontario High School where she previously worked as a Para-Educator for 6 years. Krystle graduated from the University of La Verne with a Bachelor of Liberal Arts and received her Master of Educational Counseling and Credentials in Pupil Personnel Services from USC. Krystle shared, "ROP is a great way for students to explore various career options and learn new career skills! It enables students to get ahead of their peers in the workplace because of the skills they are taught through ROP courses. In addition to ROP, I assist students with college readiness, SAT registration, college application workshops, financial aid assistance, and scholarship opportunities."

Staff News and Notes

Welcome to Baldy View ROP!

Kim Carrillo

Educational Services Assistant

Kim has been hired permanently as Baldy View ROP's new Educational Services Assistant at our Career Training Center after filling the role in a temporary capacity since September. Kim brings administrative experience to her new role with

Baldy View ROP after having served as an administrative assistant and office manager in various industries. Kim has also spent the last 10 years operating Terra Property Inspections with her husband, Johnny, which continues to run successfully in Rancho Cucamonga. Kim has familiarity with ROP courses as she took a retail fashion ROP course when she was in high school, sparking an interest that led her to earn her Associate's Degree in Fashion Merchandising at Studio Seven Fashion College. Kim is excited for her role at the Career Training Center and aims to be an excellent resource for the campus and for the organization. She enjoys collaborating and supporting students, instructors, and staff. In her free time, Kim loves everything about music including collecting various albums and attending as many concerts and musicals as she can. Kim has been married to her husband for 21 years and they have a daughter and a son together named Sophia and Nolan. The Carrillos have also served as a host family to their German 'son' Justus on a periodic basis over the last 5 years and have been happy dog owners to their Chihuahua, Maximus, for the last 8 years. Welcome, Kim!

Adelina Lang

Marketing & Public Relations Assistant

Adelina joins Baldy View ROP as our new Marketing and Public Relations Assistant. Adelina brings a strong educational background to the position having earned her Bachelor of Fine Arts in Graphic Design from Cal Poly Pomona. Her major

also included four minors in art history, marketing management, English, and Spanish. She is excited to put her degree to use in the creation of various marketing materials, maintaining and developing the organization's website, keeping the social media channels utilized by BVROP current with engaging content, and providing any assistance needed to the Business Development division. Adelina shared that she is looking forward to learning more about marketing, the various approaches and platforms the department utilizes to promote Baldy View ROP, and keeping information up-to-date for current and future students. Adelina is a major proponent of education and knows from personal experience the value of sticking with goals and seeing them through to the end. Her personal background has had its challenges but she has persevered through them and is excited to say that anything is possible. Adelina shares that she grew up in foster care since the age of 7 and was a ward of the state until her 18th birthday. As recently as 2016, Adelina was forced into a situation of homelessness and spent 8 months living out of her car while still continuing to go to school and work 40 hours a week. At its most challenging period, Adelina also had her sister living in her car with her as she helped look after her. Today, Adelina is an accomplished college graduate and is proud to have a strong and loving 'forever mom.' She also says that her "trials and tribulations taught me to take life one step at a time because no dream is ever out of reach." Welcome, Adelina!

Lisa Porter

Director of Personnel Services

Lisa Porter is Baldy View ROP's first Director of Personnel Services. Brought onboard to direct and manage the growing personnel demands of a complex organization, Lisa brings a strong professional and educational background to the new position. She earned her Bachelor of Science in Business and Marketing at the University of Redlands and will be completing her Master of Business Administration this spring 2018. Lisa is very familiar with ROP's as she last served as the Director of Human Resources at La Puente ROP, an organization where she worked for 10 years. In her new role, Lisa will oversee all of the personnel services functions for BVROP including employee health plans and benefits, recruitment and staffing, classification and compensation, employee leaves, and risk management. She is excited to join BVROP and to get to know the many instructors, staff, and stakeholders involved with the organization. Lisa is looking forward to learning and integrating herself into the many aspects of the organization and executing the duties of her role on behalf of everyone at BVROP. In her free time, Lisa enjoys spending time with her family (especially on road trips), and enjoys listening to music, watching movies, and catching up with her favorite TV shows. Welcome, Lisa!

Thank you to the Commission, Students, Parents, Staff, Instructors, Administrators, Career Technicians, Counselors, Foundation, Legislators, Sponsors, Partners, Stakeholders, and Community Resources that have continued to support Baldy View ROP this 2017! Looking forward to continuing to work with you all in 2018! Happy holidays and Happy New Year!
