Unless he/she has obtained prior written permission as specified below, any student who is determined to have brought a firearm to school or possessed a firearm at school, as verified by a ROP employee, shall be expelled for not less than one year, except that the Commission may set an earlier date for readmission on a case-by-case basis, in accordance with commission policy and administrative regulation. Advance Permission for Possession of a Weapon for Educational Use

A student who desires to possess a firearm, imitation firearm, or other prohibited weapon on school grounds for an educational purpose shall request prior permission from the Director of Instructional Services at least five school days in advance of the planned possession. The student's parent/guardian shall provide written permission explaining the planned use of the weapon and the duration. The student shall also submit a written explanation from the staff person responsible for the ROP-sponsored activity or class.

On a case-by-case basis, the Director of Instructional Services shall determine whether to grant permission for such possession when necessary for a ROP-sponsored activity or class or as part of the educational program. Factors that shall be considered include, but are not limited to, the planned use of the weapon, the duration and location of the planned use, whether an audience is expected, and any perceived adverse effects to the safety and well-being of students or staff. If the Director of Instructional Services grants such permission, he/she shall provide the student and staff person with a written explanation regarding any limitations and the permissible duration of the student's possession.

When the Director of Instructional Services or designee grants permission, he/she shall take all necessary precautions to ensure the safety of all persons on school grounds, including, but not limited to, inspecting a firearm to verify that no live ammunition is present. Any weapon allowed shall be stored in a locked vehicle or in an appropriate, locked container before and after its authorized use.

A student granted permission to possess a weapon may be suspended and/or expelled if he/she possesses or uses the weapon inappropriately.

Reporting of Dangerous Objects

The Commission encourages students to promptly report the presence of weapons, injurious objects, or other suspicious activity to school or ROP authorities. The identity of a student who reports such activity shall remain confidential to the extent permitted by law.

(cf. 5125 - Student Records)

The Superintendent or designee shall develop strategies designed to facilitate student reporting of the presence of injurious objects on school grounds, such as tip hotlines, electronic transmissions, or other methods that preserve the student's anonymity. Incident reports and records shall not identify the student who reported the possession. The Superintendent or designee also shall inform staff, students, and parents/guardians that students who report the presence of injurious objects on school campuses are to be protected and their identity shielded.
