

SCHOOL DAY

Baldy View Regional Occupational Program (ROP) defines a normal school day based upon each individual class offered in the program. Classes can be held during the morning, afternoon or evening. Education Code 37223 provides for classes on Saturday or Sunday.

The ROP shall consider the educational program offered and the utilization of staff and facilities when determining number and length of class periods.

An individual class day of less duration than the normal class day in emergencies maybe scheduled when the best interests of the students and the ROP will be served. A minimum day is defined as 60 minutes of school time. The Superintendent shall make the decision for any variance in class schedules.
