

SERVICE LEARNING/COMMUNITY SERVICE CLASSES

The purpose of Baldy View Regional Occupational Program (ROP) classes is to teach students entry-level job skills in various occupations. At the end of the class instruction, students may be able to obtain entry-level job positions in these occupations or continue advanced education.

The selection of community service projects for the classes may be as follows:

1. An individual wishing to participate in a program will indicate in writing to the ROP, attention of the Superintendent, their interest in having services done for them by the ROP students and/or teachers. The applicant shall meet the following requirements:
 - a. Explicit written provisions for the services will be provided by the applicant.
 - b. The applicant will sign a statement that he/she will authorize and be responsible for any and all costs of materials, supplies, parts, etc., necessary for completion of the service.
 - c. The applicant will sign a statement making him/her aware that the ROP will not be responsible for any damages that may occur during the time or in relationship to the service being rendered.
2. Upon completion of the above, with the Superintendent or designee's approval, the teacher may elect to participate in various phases of the requested service as they fit the curriculum of the particular class.
3. The agreement between the individual and the ROP can be terminated by either party upon written notice when it becomes apparent that the services are of no value to the students as a learning situation or the students hinder the progress of and completion of the services.
4. The ROP does not guarantee the service rendered.
